Air Force Institute of Technology
Research Report 2016
Foreword

Research programs at the Air Force Institute of Technology (AFIT) are aligned with national defense priorities and provide valuable technical and management experiences that enhance our graduates’ performance throughout their careers. To maximize value, AFIT’s research efforts address strategic priorities identified in guidance such as the USAF Strategic Master Plan (May 2015).

AFIT’s Autonomy and Navigation Technology Center, Center for Cyberspace Research, Center for Directed Energy, Center for Operational Analysis, Center for Technical Intelligence Studies and Research, Center for Space Research and Assurance and other research groups serve as focal points for many of our research initiatives. Emerging research groups are addressing game-changing technologies including hypersonics and human-machine systems, exploring energy security strategies, and developing defense-related additive manufacturing applications. AFIT advises over 30 major acquisition programs through the Scientific Test & Analysis Techniques Test & Evaluation Center of Excellence to achieve maximum effectiveness of test resources. New consultation efforts include exploration of multi-domain approaches to the Air Force’s core missions.

AFIT has strategic partnerships with the Air Force Research Laboratory, the National Air and Space Intelligence Center, the Air Force Life Cycle Management Center, the United States Transportation Command, and many other organizations and operational communities to maximize the contributions of our research programs to national defense needs. Our faculty and students also engage in collaborations with researchers at universities throughout the nation to advance the state-of-the-art in a variety of disciplines. AFIT cooperates with commercial enterprises to ensure timely transfer of new technology to US industry through Cooperative Research and Development Agreements (CRADAs).

This Research Report is prepared annually to summarize the significant contributions of AFIT; to solicit continued involvement and support from our Air Force, DOD, and other federal partners; and to encourage new sponsors to participate in AFIT’s research programs. AFIT welcomes new opportunities to engage in research projects that are of mutual interest to our customers, faculty, and students. Additional information is available at http://www.afit.edu/ENR/.

1. INTRODUCTION

1.1. OVERVIEW

This Research Report presents the FY16 research statistics and contributions of the Graduate School of Engineering and Management (EN) at AFIT. AFIT research interests and faculty expertise cover a broad spectrum of technical areas related to USAF needs, as reflected by the range of topics addressed in the faculty and student publications listed in this report. In most cases, the research work reported herein is directly sponsored by one or more USAF or DOD agencies.

AFIT welcomes the opportunity to conduct research on additional topics of interest to the USAF, DOD, and other federal organizations when adequate manpower and financial resources are available and/or provided by a sponsor. In addition, AFIT provides research collaboration and technology transfer benefits to the public through Cooperative Research and Development Agreements (CRADAs). Interested individuals may discuss ideas for new research collaborations, potential CRADAs, or research proposals with individual faculty using the contact information in this document or via the AFIT Directory at http://www.afit.edu/directory_search.cfm.

Additional information on the research programs at AFIT may also be found on the research web home page at http://www.afit.edu/ENR/. The Office of Research and Sponsored Programs, Graduate School of Engineering and Management can be reached at 937-255-3633, (DSN 785-3633) or by email: research@afit.edu. The primary points of contact are Dr. Michael J. Caylor, Director of Sponsored Programs, 937-255-3636 x7104, DSN 785-3636 x7104 and Dr. Heidi R. Ries, Dean for Research, 937-255-3636 x4544, DSN 785-3636 x4544.

1.2. THE GRADUATE SCHOOL OF ENGINEERING AND MANAGEMENT RESEARCH COLLABORATION

As detailed in the 2015-2017 catalog at http://www.afit.edu/docs/20152017AFITcatalog.pdf, AFIT offers Master’s and Doctoral programs in a variety of disciplines through six departments: the Department of Aeronautics and Astronautics (ENY), the Department of Electrical and Computer Engineering (ENG), the Department of Engineering Physics (ENP), the Department of Mathematics and Statistics (ENC), the Department of Operational Sciences (ENS), and the Department of Systems Engineering and Management (ENV). In all of these disciplines, research is an integral component of graduate education, developing an individual student’s skills and providing new knowledge of interest to many.

A brief listing of each department’s research areas of emphasis appears below. Please contact the faculty or relevant departmental office for further information, or visit the Graduate School of Engineering and Management departmental websites at http://www.afit.edu/en/.

The Department of Aeronautics and Astronautics invites research topic proposals and collaborative suggestions for the Aeronautical Engineering, Astronautical Engineering, Materials Science, and Space Systems programs. The following list highlights the Department’s research specialties:

- Aerodynamic and Design Optimization
- Aerospace Structures and Materials
- Autonomous Control of UAVs
- Compact Combustor Development
- Computational Fluid Dynamics
- Control of High Performance Aircraft
- Dynamic Flight Simulation
- Experimental Fluid Dynamics
- High Velocity Impact
- Impact Dynamics
- Inflatable Space Structures
- Materials and Structural Analysis
- Mechanics of Materials and Structures
- Micro Air Vehicles
- Non-Linear Dynamics
- Re-entry Dynamics
- Rocket & Space Propulsion
- Rotorcraft Aeromechanics
- Satellite Cluster Dynamics, Navigation, & Control
- Spacecraft Dynamics & Control
- Turbine Aerodynamics
- Weapon Aerodynamics
The **Department of Electrical and Computer Engineering** invites research topic proposals and collaborative suggestions for the Electrical Engineering, Computer Engineering, Computer Science, Cyber Operations, and Cyber Warfare programs, as well as the **Autonomy and Navigation Technology Center** and the **Center for Cyberspace Research**. The following list highlights the Department’s research specialties:

<table>
<thead>
<tr>
<th>Advanced Security-Focused Computing</th>
<th>Evolutionary Algorithms</th>
</tr>
</thead>
<tbody>
<tr>
<td>Architectures</td>
<td>Guidance, Navigation, and Control</td>
</tr>
<tr>
<td>Artificial Intelligence</td>
<td>Hardware Assurance</td>
</tr>
<tr>
<td>Automatic Target Recognition</td>
<td>Information Visualization</td>
</tr>
<tr>
<td>Communications/Radar</td>
<td>Micro- and Nanosystems</td>
</tr>
<tr>
<td>Computer Communication Networks</td>
<td>Parallel and Distributed Processing</td>
</tr>
<tr>
<td>Cryptography</td>
<td>Signal and Image Processing</td>
</tr>
<tr>
<td>Cyber Operations and Security</td>
<td>Software Protection</td>
</tr>
<tr>
<td>Electromagnetics/Low Observables</td>
<td>Wireless Networks</td>
</tr>
<tr>
<td>Electro-Optics</td>
<td>Wireless Sensor Networks</td>
</tr>
</tbody>
</table>

The **Department of Engineering Physics** invites research topic proposals and collaborative suggestions for the Applied Physics, Nuclear Engineering, Optical Sciences and Engineering, Materials Science (jointly operated with the Department of Aeronautics and Astronautics), and Combating Weapons of Mass Destruction programs, as well as the **Center for Directed Energy** and **Center for Technical Intelligence Studies and Research**. The following list highlights the Department’s research specialties within these programs:

<table>
<thead>
<tr>
<th>Adaptive Optics, Aero-Optics and Beam Control</th>
<th>Molecular Reaction Dynamics</th>
</tr>
</thead>
<tbody>
<tr>
<td>Atmospheric Characterization and Compensation</td>
<td>Nanomaterials</td>
</tr>
<tr>
<td>Atmospheric Effects on Weapons Systems</td>
<td>Nanomechanics</td>
</tr>
<tr>
<td>Atmospheric Electricity</td>
<td>Nuclear Forensics</td>
</tr>
<tr>
<td>Aviation Weather Forecasting</td>
<td>Nuclear Survivability</td>
</tr>
<tr>
<td>Biological and Chemical Weapon Technologies</td>
<td>Nuclear Weapons Effects</td>
</tr>
<tr>
<td>Computational Physics</td>
<td>Numerical Weather Prediction</td>
</tr>
<tr>
<td>Defects in Crystalline Solids</td>
<td>Physics-Based Scene Modeling</td>
</tr>
<tr>
<td>Directed Energy Weapons Effectiveness</td>
<td>Positron Spectrometry</td>
</tr>
<tr>
<td>High Energy Density Physics</td>
<td>Radiation and Particle Detection</td>
</tr>
<tr>
<td>Imaging Science</td>
<td>Radiation Effects on Materials and Electronics</td>
</tr>
<tr>
<td>Lasers and Electro-Optics</td>
<td>Radiation Transport</td>
</tr>
<tr>
<td>Muon Detection</td>
<td>Remote Sensing and Signature Analysis</td>
</tr>
<tr>
<td>Materials – Bio, Nuclear and Sensor</td>
<td>Satellite Meteorology</td>
</tr>
<tr>
<td>Microscopic Imaging of Surfaces</td>
<td>Semiconductors</td>
</tr>
<tr>
<td>Modeling and Simulation of Atmospheric Effects</td>
<td>Space Physics</td>
</tr>
<tr>
<td></td>
<td>Tropical Cyclone Analysis and Forecasting</td>
</tr>
<tr>
<td></td>
<td>Weather Radar</td>
</tr>
</tbody>
</table>

The **Department of Mathematics and Statistics** invites research topic proposals and collaborative suggestions for the following research specialties:

<table>
<thead>
<tr>
<th>Acoustic Wave Scattering</th>
<th>Information Fusion</th>
</tr>
</thead>
<tbody>
<tr>
<td>Bayesian Analysis</td>
<td>Nonlinear Waves</td>
</tr>
<tr>
<td>Biostatistics</td>
<td>Numerical Analysis</td>
</tr>
<tr>
<td>Categorical Data Analysis</td>
<td>Optimization</td>
</tr>
<tr>
<td>Control Theory</td>
<td>Partial Differential Equations</td>
</tr>
<tr>
<td>Data Analytics</td>
<td>Rarefied Gas Dynamics</td>
</tr>
<tr>
<td>Design of Experiments</td>
<td>Regression Modeling</td>
</tr>
<tr>
<td>Electromagnetics</td>
<td>Stochastic Processes</td>
</tr>
<tr>
<td>Fluid Dynamics</td>
<td>Structural Health Monitoring</td>
</tr>
<tr>
<td>Functional Analysis</td>
<td>Wavelets</td>
</tr>
</tbody>
</table>
The Department of Operational Sciences, as well as its resident Center for Operational Analysis, invites research topic proposals and collaborative suggestions within the areas of Operations Research, Logistics, and Supply Chain Management programs. The following list highlights the Department’s research specialties:

- Agile Combat Support Prioritization
- Automatic Target Recognition
- Enterprise Level Depot Sustainment
- Evaluation of Autonomous Systems
- Facility Location Optimization
- Force Structure Analysis Tool Development
- Irregular Warfare Model Development
- Materials Research Test Planning
- Modeling and Simulation
- Network Analysis
- Repair Network Integration
- Robust Decision Making
- Robust Mobility Modeling
- Social Network Modeling and Analysis
- Supply Chain Management and Resource Optimization
- Test and Evaluation

The Department of Systems Engineering and Management is a multidisciplinary department offering graduate degrees in seven different majors and conducting research in collaboration with the wide spectrum of programs throughout AFIT. The mission of the Department is to provide defense-focused graduate education and engage in interdisciplinary research to achieve integrated solutions to current and future Air Force challenges and enhance the interface between technology and human resources by focusing on systems, processes, and management. The following list highlights the Department’s research specialties:

- Applied Environmental Sciences
- Computer and Network Security
- Construction Management
- Cost Analysis
- Design and Analysis of Experiments
- Ecological Engineering
- Emergency Management
- Facility and Infrastructure Management
- Fuels Microbiology
- Geographical Information Science
- Human Systems Integration
- Human-Agent Interaction
- Image and Display Science
- Information Assurance and Security
- Infrastructure Asset Management
- Knowledge Management
- Model-Based Systems Engineering
- Neck Injury Biomechanics
- Occupational/Environmental Exposures
- Operations Research
- Organizational Change
- Physiologically-Based Pharmacokinetic Modeling Analysis
- Product Design and Development
- Project Management
- Reliability Engineering
- Strategic Decision Support
- Structural Health Monitoring
- Surface Science
- Sustainability and Life Cycle Assessment
- Systems Engineering
- Unmanned Air System Design and Test Vigilance

Another avenue for educational and research collaboration with the Graduate School of Engineering and Management is through association with one or more of AFIT’s Research Centers. A brief listing of each Center’s research or educational areas of emphasis appears below. Please contact the Centers directly (see Chapter 6) or visit http://www.afit.edu/ENR/page.cfm for further information.

The Autonomy and Navigation Technology (ANT) Center is a forward-looking research center seeking to identify and solve tomorrow’s most challenging navigation and autonomous and cooperative control problems by focusing on three research thrusts: autonomous and cooperative systems, non-GPS precision navigation, and robust GPS navigation/NAVWAR.

The Center for Cyberspace Research (CCR) conducts cutting-edge research in all aspects of cyberspace operations, including offense/exploitation, network defense, vulnerability analysis, critical infrastructure protection, human factors, and reverse engineering. Under CCR’s leadership, AFIT has been designated by the National Security Agency as a Center of Academic Excellence in Cyber Operations and in Information Assurance Research. AFIT/CCR also plays a prominent role in developing the Air Force’s cyberspace operations workforce through execution of the Cyber 200 and Cyber 300 professional continuing education courses. Through these programs,
AFIT/CCR helps produce a cadre of technically educated leaders for the DOD and Federal Government. Finally, as the Air Force’s Cyberspace Technical Center of Excellence, CCR faculty and staff advise Air Force and DOD leaders on issues related to force development, cyberspace education, and research activities.

The Center for Directed Energy (CDE) is dedicated to Air Force and DOD research in high energy lasers (HELs), high power microwaves (HPMs), and their enabling technologies. The Center is an advocate for transitioning these systems to the battlefield through vigorous scientific and engineering research, graduate education programs and diverse consulting activities.

The Center for Operational Analysis (COA) conducts defense-focused research which directly supports DOD strategic objectives. The COA applies rigorous quantitative and qualitative tools, methodologies and approaches to identify, analyze and solve complex operations and supply chain problems while developing critical and forward-thinking analysts, managers, and leaders.

The Center for Space Research and Assurance (CSRA) is focused on delivering highly-valued resilient, responsive and reliable space capabilities to the DOD and Intelligence Community through executing cutting-edge space technology development, science and space experiments in collaboration with government organizations, to meet the challenges of tomorrow by developing the technical space cadre through world-class research and immersive hands-on graduate education.

The Center for Technical Intelligence Studies and Research (CTISR) is focused on Air Force, DOD and Intelligence Community’s scientific, technical and operational activities through graduate research programs. Activities are directed on improving technical intelligence gathering via remote sensing. Current research is focused on signature measurement, phenomenological understanding, and algorithm development for target detection and tracking, battle space combustion characterization, event classification, and material identification.

The Center of Excellence (COE) for Scientific Test and Analysis Techniques (STAT) in Test & Evaluation (T&E) is a reach-back T&E capability that provides advice and assistance in the application of scientific test and analysis techniques in the development of Test & Evaluation Master Plans (TEMP). The COE provides value to the PEOs/PMs across the DOD through assistance provided to the Chief Developmental Tester (T&E Program Leads) during the T&E planning, execution and assessment. The COE provides an additional resource of subject matter expertise for the program managers and chief developmental testers of Major Defense Acquisition Programs (MDAP) and Major Automated Information Systems (MAIS) during the T&E planning, execution, and assessment process.
2. SPECIAL RECOGNITIONS

2.1 FACULTY FELLOWS

BADIRU, ADEDEJI B., Dean, Graduate School of Engineering and Management, Fellow of the Institute of Industrial Engineers, Fellow of the Nigerian Academy of Engineering.

BRIDGMAN, CHARLES J., Professor Emeritus of Nuclear Engineering, Department of Engineering Physics, Fellow of the American Nuclear Society.

DECKRO, RICHARD F., Professor of Operations Research, Department of Operational Sciences, Fellow of the Military Operations Research Society.

ELROD, WILLIAM E., Professor Emeritus of Aerospace Engineering, Department of Aeronautics and Astronautics, Fellow of American Society of Mechanical Engineers International.

FRANKE, MILTON E., Professor Emeritus of Aerospace Engineering, Department of Aeronautics and Astronautics, Fellow of the American Society of Mechanical Engineers.

GOLTZ, MARK N., Professor of Engineering and Environmental Management, Department of Systems Engineering and Management, Fellow of the Society of American Military Engineers.

GRIMAILA, MICHAEL R., Professor and Head, Department of Systems Engineering and Management, Fellow of the Information System Security Association.

HENGHEHOLD, ROBERT L., Professor Emeritus of Physics, Department of Engineering Physics, Fellow of the American Physical Society.

HOUPIS, CONSTANTINE H., Professor Emeritus of Electrical Engineering, Department of Electrical and Computer Engineering, Fellow of the Institute of Electrical and Electronic Engineers.

MALL, SHANKAR, Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, Fellow of the American Society of Mechanical Engineers International.

MAYBECK, PETER S., Professor Emeritus of Electrical Engineering, Department of Electrical and Computer Engineering, Fellow of the Institute of Electrical and Electronic Engineers.

PACHTER, MEIR, Professor of Electrical Engineering, Department of Electrical and Computer Engineering, Fellow of the Institute of Electrical and Electronic Engineers.

PERRAM, GLEN P., Professor of Physics, Department of Engineering Physics, Fellow of the Directed Energy Professional Society.

PIGNATIELLO, JOSEPH J., Professor of Operations Research; Head, Department of Operational Sciences, Fellow of the Institute of Industrial Engineers; Fellow of the American Society for Quality.

POLANKA, MARC D., Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, Fellow of the American Society of Mechanical Engineers International.

RAQUET, JOHN F., Associate Professor of Electrical Engineering, Department of Electrical and Computer Engineering, Fellow of the Institute of Navigation.
RUGGLES-WRENN, MARINA B., Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, Fellow of the American Society of Mechanical Engineers International.

TERZUOLI, ANDREW J., Associate Professor of Electrical Engineering, Department of Electrical and Computer Engineering, Fellow of the Electromagnetics Academy.

WEIR, JEFFERY W., Professor and Deputy Department Head, Department of Operational Sciences, Fellow of the Southwestern Ohio Council for Higher Education.
2.2 PROFESSIONAL CERTIFICATIONS

AHNER, DARRYL K., Professional Engineer (Commonwealth of Virginia)

BADIRU, ADEDEJI B., Certified Project Management Professional (PMP), Leadership Certificate (University of Tennessee Leadership Institute), Professional Engineer (State of Oklahoma)

BINDEWALD, JASON M., Capt, Level 1 Engineering acquisitions certification

CHRISSIS, JAMES W., Professional Engineer (Florida #37247)

CUNNINGHAM, WILLIAM A., Certified in Transportation and Logistics (CTL)

ENINGER, ROBERT M., Lt Col, Board Certified Industrial Hygienist

FASS, ROBERT D., Certified Cost Estimator/Analyst (International Cost Estimating and Analysis Association)

FREELS, JASON K., Maj, Systems Planning, Research, Development and Engineering (SPRDE) Certification, Level III

GOLDEN, ERIC M., Maj, APDP Level II Certification – SPRDE Science and Technology Manager, APDP Level II Certification – SPRDE Systems Engineer, APDP Level I Certification – Program Management

GOLTZ, MARK N., Board Certified Environmental Engineer (American Academy of Environmental Engineers), Professional Engineer (State of Minnesota)

GREENDYKE, ROBERT B., Professional Engineer (State of Texas)

HARPER, WILLIE F., Jr., Professional Engineer (State of Arizona)

HAZEN, BENJAMIN T., Maj, Certified Lean Six Sigma Black Belt, Certified Six Sigma Green Belt, Certificate in Transportation and Logistics Regulation, Certification in Transportation and Logistics (CTL)

*HOUPIS, CONSTANTINE H., Professional Engineer (State of Ohio)

KEMPISTY, DAVID, Lt Col, Professional Engineer (State of Michigan)

KUNZ, DONALD L., Professional Engineer (Commonwealth of Virginia)

LAKE, ROBERT A., Capt, Science and Technology Management Level III.

LOPER, ROBERT D., APDP Level II Certification – SPRDE, APDP Level II Certification – S&T Management, APDP Level I Certification – Program Management

MAILLOUX, LOGAN O., Maj, Certified Information System Security Professional (CISSP), Certified Systems Engineering Professional (CSEP)

MARCINIAK, MICHAEL A., APDP Level II Certification – SPRDE, APDP Level II Certification – Program Management, APDP Level I Certification – Test and Evaluation, Certified Laser Safety Officer (Board of Laser Safety, Orlando, FL)
MBONIMPA, ERIC G., Professional Engineer (State of Michigan)

OVERSTREET, ROBERT E., Lt Col, Certified in Transportation & Logistics (CTL)

PALAZOTTO, ANTHONY N., Professional Engineer (State of Ohio)

PARR, JEFFREY C., Lt Col, Systems Planning, Research, Development and Engineering (SPRDE) Certification, Level III

PERRAM, GLEN P., Professional Engineer (State of Ohio)

*QUINN, DENNIS W., Professional Engineer, (State of Ohio)

RAMSEY, BENJAMIN W., Maj, Certified Information System Security professional (CISSP)

REEDER, MARK F., Professional Engineer (State of Ohio)

RICE, MASON J., LTC, Certified Information System Security Professional (CISSP)

RITSCHEL, JONATHAN, Lt Col, APDP Business-Cost Estimation Certification, Level II

RUTLEDGE, JAMES L., Maj, Professional Engineer (State of Texas)

SHELLEY, MICHAEL L., Certified Air Force Hearing Conservationist

SLAGLEY, JEREMY M., Board Certified Industrial Hygienist, Board Certified Safety Professional

STONE, BRIAN B., Maj, Six Sigma Black Belt Certification (Arizona State University), Certificate in Statistics (Arizona State University)

TUTTLE, RONALD F., APDP Level III Certification – Program Management, APDP Level III Certification – SPRDE

VALENCIA, VHANCE V., Maj, Professional Engineer (State of North Carolina)

*Emeritus faculty
2.3 RESEARCH AND TEACHING AWARDS

2.3.1 FACULTY

AKERS, BENJAMIN F,
ENC Instructor of the Quarter, 2016 Winter Quarter.

BADIRU, ADEDEJI B,
Air Education and Training Command National Public Service Award.
2016 Outstanding Global Engineering Education Award, Industrial Engineering and Operations Management (IEOM) award, September 2016, Detroit, MI

COBB, RICHARD G,
2015 Air University Team of the Year Award, Center for Space Research and Assurance

COUTU, RONALD A., Jr.,
Eta Kappa Nu (HKN), Key Chapter Award – Faculty Advisor; Eta Kappa Num (HKN), Outstanding Teaching Award, ENG Faculty Instructor of the Year.

CROWE, DARRELL S., Maj,
2015 Southwest Ohio Council for Higher Education (SOCHE) Excellence in Teaching Award

DECKRO, RICHARD F.,
1st Editor Emeritus, Military Operations Research, 2016

DOUGLAS, MATTHEW A., Lt Col,
2016 AFIT Faculty Research Fellow

FEE, JAMES R. Jr., Lt Col,
Charles Brothers’ “Outstanding Volunteer Service Award,” March 2016

FICKUS, MATTHEW C,
ENC Instructor of the Year, June 2016

FREELS, JASON K., Maj,
The Lloyd S. Nelson Award: Awarded by the American Society for Quality (Statistics Division)

GUNAWARDENA, SANJEEV,
Civilian Cat III Award, 2016 1st Quarter, School of Engineering and Management, Air Force Institute of Technology, April 2016
HARPER, WILLIE F., Jr.,
2016 John L. McLucas Basic Research Award

HAVRILLA, MICHAEL J.,
Board of Directors Member, Antenna Measurement techniques Association (AMTA), January 2016.

HAZEN, BENJAMIN T., Maj,
2016 Faculty Excellence Award, Southwestern Ohio Council for Higher Education

HILL, RAYMOND R.,
2016 Air Force Outstanding Science and Engineering Educator Award

LOPER, ROBERT D.,
2015 SOCHE Faculty Excellence Award, October 2015

MARTIN, RICHARD K.,
Presidential Volunteer Service Award (silver level), AFIT Engineers Week Team. June 2015; Presidential Volunteer Service award (gold level), AFIT-NASIC team, May 2016.

MIXON, DUSTIN G., Maj,
ENC Instructor of the Quarter, 2015 Fall Quarter.

OVERSTREET, ROBERT E., Lt Col,
2016 Professor of the Year, Advanced Studies of Air Mobility (ASAM) Program
2016 Outstanding Reviewer (IJLM), Emerald Literati Network Awards for Excellence

PETE RSON, JESSE D., Maj,
ENC Instructor of the Quarter, 2016 Summer Quarter.

RAMSEY, BENJAMIN W., Maj,
Best MS Paper at ICCWS’ 16 for “Z-Ranger: An Improved Tool Set for ZigBee Warwalking”

REEGER, JONAH A., Capt,
ENC Instructor of the Quarter, 2016 Spring Quarter

RICE, MASON J., LTC,
Co-author of Top Rated Paper at 10th Annual IFIP WG 11.10 International Conference on Critical Infrastructure Protection SRI International, March 2015
RUGGLES-WRENN, MARINA B.,
2015 American Society of Mechanical Engineers (ASME) Pressure Vessel and Piping Division Certificate of Appreciation

RUSNOCK, CHRISTINA, F., Maj,
2016, AETC Educator of the Year, Air University, Maxwell AFB, AL
2016, Safety, Human Factors, and Ergonomics Track Best Paper Award, Institute of Industrial and Systems Engineers
2016, Outstanding Military Faculty Award, Military Officers Association of America
2015 Presidential Volunteer Service Award – Gold (Team Category), Corporation for National and Community Service
2015, Best Poster Award, 2015 Fall Technical Symposium of the Cincinnati-Dayton Chapter of INFORMS

STONE, BRIAN B., Maj,
Air Force Institute of Technology Field Grade Officer of the Quarter, Third Quarter 2015
Combined Air Operations Center, Strategy Division, Field Grade Officer of the Quarter, Second Quarter 2016

SWENSON, ERIC D.,
2015 Air University Team of the Year Award, Center for Space Research and Assurance

TERZUOLI, ANDREW J.,
Annual Citation from IEEE – local joint chapter chair

WHITE, EDWARD D. III,
Dr. Leslie M. Norton Teaching Excellence Award, March 2016

2.3.2 STUDENTS

BOARDMAN, NICHOLAS T.,
2016 Dean’s Award for the most exceptional master’s thesis by a graduating student in the Department of Operational Sciences. Thesis title: “Heterogeneous Air Defense Battery Location: A Game Theoretic Approach.”

BIHL, TREVOR J.,
Civilian Student of the Year

CAMMARATA, JASON A.,
American Nuclear Society Best Thesis Award, March 2016

DEGUZMAN, ERIC D.,
Information Security and Information Operations Academic Research Excellence Award (Association of Old Crows)
FITCH, KYLE E.,

FITZPATRICK, BRIAN J.,

2016 Dean’s Award for the most exceptional master’s thesis by a graduating student in the Department of Systems Engineering and Management. Thesis title: “Determining the Optimal Work Breakdown Structure for Defense Acquisition Contracts.”

FRANDSEN, BRIAN,

2016 Louis F. Polk Award that recognizes a graduating student who has made an advanced contribution to his/her professional field in direct furtherance of the objectives of the National Defense Industrial Association.

GRAVES, W. THOMPSON Jr.,

2016 Dean’s Award for the most exceptional master’s thesis by a graduating student in the Department of Aeronautics and Astronautics. Thesis title: “Topology Optimization of a Penetrating Warhead.”

GULOTTA, PAUL A.,

Art-in-Science Award (3rd Place) – 41st AIAA Dayton Cincinnati Aerospace Science Symposium, Mar 2016

HESS, JOSHUAH A.,

IGUCHI, TAKAYUKI,

2016 Dean’s Award for the most exceptional master’s thesis by a graduating student in the Department of Mathematics and Statistics. Thesis title: “Clustering Theory and Data-Driven Health Care Strategies.”

KODAMA, CHRISTOPHER H.,

2016 Dean’s Award for the most exceptional master’s thesis by a graduating student in the Department of Electrical and Computer Engineering. Thesis title: “Tunable Terahertz Metamaterials with Germanium Telluride Components.”

KAPLAN, SERGEY M.,

Best Student Paper – 2015 SEM Annual Conference & Exposition, Research Title: “Measurement of the Electromechanical Response of Capacitors in Dynamic Loading Conditions.”

KOSTRUBALA, KAZIMIR M.,

ASAM Honors Graduate

LUKACS, MATHEW W.,

Piergiorgio L.E. Uslenghi Prize Paper Award on antennas and Wireless Propagation, IEEE Antenna and Propagation Society, May 2016
MAYWALD, JACOB,
2016, Jerome G. Peppers Jr. Outstanding Student Award which is given to a member of each graduating class whose academic record and research significantly contributes to the field of logistics.

MILLER, ALLEN R.,
Student Field Grade Officer of the Year

ROBERTS, MATTHEW,
Outstanding Reviewer at Midwest Academy of Management Conference

SHALLCROSS, NICHOLAS,
2016 Mervin E. Gross Award, that recognizes a graduating master’s student who has demonstrated the most exceptional academic achievement and high qualities of character, initiative and leadership.

WIESE, CONNOR J.,

WHITE, ANTHONELLI,
Best Student Paper at Midwest Academy of Management Conference

YOUNG, SHANNON R.,
“Best Communicated Research Project” at NGA Persistent Infrared Tech Forum, Nov 2015
3. RESEARCH STATISTICS

3.1 RESEARCH AND CONSULTING OUTPUT MEASURES

There are measurable indicators of AFIT’s contribution to the engineering and scientific community and AFIT’s success in staying well informed of technical possibilities and scientific opportunities. These indicators include the number and quality of technical publications accepted by the editors of journals; the number of presentations accepted for regional, national and international conferences; the number of sponsor funded research projects conducted; and finally, the number of student Graduate Research Papers, MS theses, and PhD dissertations completed and submitted to the Defense Technical Information Center. For FY16, these output measures are shown in Tables 3.1a and 3.1b for the Departments and Centers, respectively.

3.2 RESEARCH AND CONSULTING SPONSORSHIP

As part of an Air Force institution, the faculty members of the Air Force Institute of Technology focus their research on current problems as well as future systems of the Air Force and other DOD organizations. Evidence of this focus is that 91% of all theses, dissertations, and graduate research papers listed in Table 3.1a are externally sponsored by Air Force, DOD and government agencies. In addition, most of the research projects and consultations are carried out for Air Force and DOD units. The data are summarized in Figure 3.1 and Table 3.2.

3.3 EXTERNAL SPONSOR FUNDING FOR THE GRADUATE SCHOOL OF ENGINEERING AND MANAGEMENT

Many of the Graduate School of Engineering and Management’s theses and research projects completed under faculty supervision are funded in part by other Air Force, DOD and government units and agencies. Often, this funding results from collaboration between faculty and thesis sponsors and occurs when the research project can be leveraged by the purchase of equipment or services not otherwise available. Figure 3.2 summarizes the past ten fiscal years of sponsored funding. Tables 3.3 and 3.4, and Figure 3.3, summarize external funding for FY16.

BENTLEY, BROOK I., Maj,
Assistant Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2013 (AFIT/ENY); BS, Mechanical Engineering, Brigham Young University, 2005; MS, Aeronautical Engineering, Air Force Institute of Technology, 2009; PhD, Air Force Institute of Technology, 2013. Maj Bentley’s research interests include hypersonics, scramjets, fluids, and surface phenomena such as ablation and sublimation. He is a member of AIAA, Phi Kappa Phi, Tau Beta Pi, and Sigma Gamma Tau. Tel. 937-255-3636 x7478, email: Brook.Bentley@afit.edu

REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF ABSTRACT REVIEW

COBB, RICHARD G.,
Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2001 (AFIT/ENY); BS, Pennsylvania State University, 1988; MS, Air Force Institute of Technology, 1992; PhD, Air Force Institute of Technology, 1996. Dr. Cobb teaches courses on control theory, optimization and satellite design. His research focuses on dynamics and control of space structures for space-based remote sensing, and optimization and control for aerospace applications. Recent research includes developing optimal trajectory plans for Global Strike missions, maneuver planning for satellite proximity operations, and dynamics and control techniques for lightweight space optics and sensor systems for Space Situational Awareness. While on active duty, Dr. Cobb served as the technical advisor for AFRL’s Space Vehicles Technology Branch, and led several space flight experiment programs, including the Vibration Isolation and Suppression System sponsored by BMDO and the Satellite Ultra-quiet Isolation Technology Experiment. Dr. Cobb also served as a launch operations officer at Cape Canaveral AFS on the Global Positioning System program, responsible for the integration and launch of the GPS Block II satellite constellation. Dr. Cobb is an Associate Fellow of AIAA. AFIT research center affiliation(s): CSRA, ANT and CDE. Tel. 937-255-3636 x4559, email: Richard.Cobb@afit.edu

COMER, ADAM L., Capt,
Assistant Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2015 (AFIT/ENY); BS, Mechanical Engineering, United States Air Force Academy, 2009; PhD, Engineering, University of Cambridge, 2013. Capt Comer’s research interests include fluid mechanics, combustion, and computational fluid dynamics-based design optimization with a focus on developing and applying practical and advanced computational models of turbulent combustion and multiphase flows for gas turbine propulsion applications. Specific research efforts include an automated, CFD-based optimization of a gas turbine fuel injector and computational modeling of bluff-body flame dynamics and instability. During his previous assignment as a deputy branch chief and combustion research engineer at AFRL, he gained exposure to a variety of applied and fundamental research efforts for current and future combustion systems for propulsion. Tel. 937-255-6565 x4745, email: Adam.Comer@afit.edu

DELUCA, ANTHONY M., Lt Col,
Assistant Professor of Aerospace Engineering, AFIT Appointment Date: 2013 (AFIT/ENY); BS, Mechanical Engineering, US Military Academy at West Point, 1995; MBA, Technology Management, University of Phoenix/ABQ, 1998; MS, Aeronautical Engineering, Air Force Institute of Technology, 2004; PhD, Aeronautical Engineering, Air Force Institute of Technology, 2013. Lt Col DeLuca's research interests include aerodynamics, fluid mechanics, and biomimetic flight systems. Lt Col DeLuca is a flight test engineer with extensive experience in air-to-air and air-to-ground weapons, and on national ISR systems, conducting flight test in a variety of aircraft. He is a commercial pilot with instrument and high-performance ratings, and a member of Tau Beta Pi, Sigma Gamma Tau, and AIAA. Tel. 937-255-3636 x4537, email: Anthony.Deluca@afit.edu

REFEREED JOURNAL PUBLICATIONS

FREEMAN, JACOB A., Lt Col,
Deputy Head and Assistant Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2015 (AFIT/ENY); BS, Mechanical Engineering, Brigham Young University, 1997; MS, Aeronautical Engineering, Air Force Institute of Technology, 2003; PhD, Aeronautical Engineering, Virginia Tech, 2012. Lt Col Freeman’s research interests include computational fluid dynamics, optimization under uncertainty, predictive computational uncertainty, and computational turbulence modeling. Lt Col Freeman has experience as the GPS deputy chief engineer at the Space & Missile Systems Center and as assistant professor of aeronautical engineering at the Air Force Academy. He also has experience in computational aircraft-store separation at the Air Force SEEK EAGLE Office; computational, experimental and flight testing of a micro air vehicle; and satellite payload testing, integration, launch and operations for the MightySat II.1 space vehicle for the Air Force Research Lab. He also deployed to Guantanamo Bay, Cuba in support of Operation Enduring Freedom. He is a member of AIAA. Tel. 937-255-3636 x4901, email: Jacob.Freeman@afit.edu

REFEREED JOURNAL PUBLICATIONS

GEISEL, CHRISTOPHER D., Lt Col, Assistant Professor of Astronautical Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2014 (AFIT/ENY); BS, Astronautical Engineering, United States Air Force Academy, 2001; MS, Astronautical Engineering, Air Force Institute of Technology, 2008; PhD, Purdue University, 2013. Lt Col Geisel’s research interests include astrodynamics and dynamical systems theory. He has investigated spacecraft orbit design in a multi-body environment as well as navigation solutions for on-orbit inspection of satellites. Previously, he worked as an orbital analyst for the Advanced Payload Design Team at NASA’s Jet Propulsion Laboratory. At the Air Force Research Laboratory Sensors Directorate, he led the design of a sensor system for hypersonic vehicles. At the Space and Missile Systems Center / Missile Defense Systems Group, he supervised development, integration, testing, and operator training for two satellites designed to track ballistic missiles. He also mentored Iraqi and Afghan security forces during Operation Iraqi Freedom and Operation Enduring Freedom. Lt Col Geisel is a member of Sigma Gamma Tau, Tau Beta Pi, and AIAA. AFIT research center affiliation(s): CSRA. Tel. 937-255-3636 x4237, email: Christopher.Geisel@afit.edu

GREENDYKE, ROBERT B., Associate Professor of Aeronautics and Astronautics and Director, AFIT Scientist and Engineer Education Programs at Kirtland AFB, Department of Aeronautics and Astronautics, Appointment Date: 2005 (AFIT/ENY); BBA, Economics, Baylor University, 1979; BS, Aerospace Engineering, Texas A&M University, 1986; MS, Aerospace Engineering, Texas A&M University, 1988; PhD, Interdisciplinary Engineering, Texas A&M University, 1998. Dr. Greendyke’s research interests include computational fluid dynamics, Direct Simulation Monte Carlo methods, hypersonic and reacting flows, radiation simulation, thermophysics, and plasma simulation. Dr. Greendyke was a Research Scientist at NASA-Langley Research Center studying re-entry and aerobraking flows, and an Associate Professor in the University of Texas at Tyler establishing a start-up Mechanical Engineering Program from concept through accreditation. He has published over 30 journal articles, technical reports and conference publications in multiple fields. He is an Associate Fellow of the American Institute of Aeronautics and Astronautics. Tel. 937-255-3636 x4567, email: Robert.Greendyke@afit.edu

HALE, CHAD S., Lt Col,
Assistant Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2015 (AFIT/ENY); BS, Mechanical Engineering, Brigham Young University, 1994; MS, Aeronautical Engineering, Air Force Institute of Technology, 1995; PhD, Aeronautical Engineering, Air Force Institute of Technology, 2010. Lt Col Hale is a graduate of the US Air Force Test Pilot School experimental flight test engineer course (Class 00B). Prior to his assignment to AFIT, Lt Col Hale served as the MQ-9 Chief of Test in the Medium Altitude UAS Division, Wright-Patterson AFB, OH. Lt Col Hale has extensive flight test experience as an F-16 developmental engineer, F-15 flight test technical director, and as Deputy Division Chief in HQ AFMC Test and Evaluation Division. His research interests include structural mechanics, weapons and munitions, and flight test. Lt Col Hale deployed to Baghdad, Iraq in support of the Office of Security Cooperation—Iraq. Lt Col Hale is a member of Tau Beta Pi, Sigma Gamma Tau, and ASME. Tel. 937-255-3636 x4628, email: Chad.Hale@afit.edu

HARTSFIELD, CARL R.,
Assistant Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2015 (AFIT/ENY); BS, Aerospace Engineering, Georgia Institute of Technology, 1991; MS, Aeronautical Engineering, Air Force Institute of Technology, 2001; PhD, Astronautical Engineering, Naval Postgraduate School, 2006. Dr. Hartsfield is a former faculty member of The Ohio State University, former space sensor payload program manager, and retired USAF Lt Col. His research interests include space and rocket propulsion and optimal design of spacecraft, including integration and testing of spacecraft. Dr. Hartsfield’s research focuses on experimental evaluation and diagnostics for space propulsion, analytic evaluation of spacecraft design, and applications of additive manufacturing for optimal spacecraft structures. He served as an invited space propulsion session co-chair at a 2011 NASA GRC HBCUOMI Outreach Symposium, as a session chair at the 2011 and 2012 Dayton/Cincinnati Aerospace Sciences Symposium, and as deputy chair for the technical program and session chair at the 2016 Dayton/Cincinnati Aerospace Sciences Symposium. Dr. Hartsfield is a member of AIAA, Sigma Gamma Tau, and the American Society for Engineering Education. AFIT research center affiliation(s): CSRA. MALL, SHANKAR,
Distinguished Professor, Department of Aeronautics and Astronautics, AFIT Appointment Date: 1986 (AFIT/ENY); BS, Mechanical Engineering, Banaras Hindu University, India, 1964; MS, Mechanical Engineering, Banaras Hindu University, 1966; PhD, Mechanical Engineering, University of Washington, 1977. Dr. Mall's research centers on composite and smart materials, fatigue and fracture. Dr. Mall has authored over 300 papers and has been the co-editor of a book and five conference proceedings. He is a Fellow of ASME and an Associate Fellow of AIAA. He was also the Principal Materials Research Engineer, Materials and Manufacturing Directorate, Air Force Research Laboratory. Tel. 937-255-3636 x4587, email: Shankar.Mall@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Applications of carbon nanotube (CNT) fabric in satellites including CubeSat.” Sponsor: Undisclosed. Funding: $92,800 – Mall 70%, Swenson 20%, Rutledge 10%. 
“Characterization of Ceramics Matrix Composite in Gas Turbine Engine Environments.” Sponsor: AFRL/RX. Funding: $15,000.

O’HARA, RYAN P., Maj.
Assistant Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2015 (AFIT/ENY); BS, Mechanical Engineering, US Air Force Academy, 2000; MS, Aeronautical Engineering, Wright State University, 2005; PhD, Aeronautical Engineering, Air Force Institute of Technology, 2012. Maj O’Hara’s research focuses on the application of mechanical structures and structural dynamics. Areas of interest include turbine engines, laminate composites, small UAS, and additive manufacturing. AFIT research center affiliation(s): CSRA. Tel. 937-255-6565 x4542, email: Ryan.Ohara@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Abnormal Grain Growth in Beta Annealed Ti-6Al-4V.” Sponsor: AFRL/RX. Funding: $20,000.

“Unit Cell Optimization of Lattice Structures.” Sponsor: AFRL/RW. Funding: $27,000. [CSRA]

PALAZOTTO, ANTHONY N.,
Distinguished Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 1975 (AFIT/ENY); BS, New York University, 1955; MS, Brooklyn Polytechnic Institute, 1961; PhD, New York University, 1968. Dr. Palazotto’s interests include nonlinear mechanics, shell analysis, finite elements, composite materials, viscoplasticity, and nonlinear dynamics. Dr. Palazotto is the co-author of a textbook, “The Nonlinear Analysis of Shell Structures,” published in 1992 by the AIAA. In addition he has authored 236 archival technical publications and more than 550 technical presentations and manuscripts. Dr. Palazotto received the Hetanyi Award in 1982 from the Society of Experimental Mechanics, the Cleary Award in 1981 from the Air Force Materials Lab, the Structures and Materials Award from the ASCE in 1986, and the AIAA Sustained Service Award in 2004. Dr. Palazotto is a Fellow of the ASCE, a Fellow of the AIAA, a Fellow of the American Academy of Mechanics, and a Fellow of the Engineering Mechanics Institute. He is a registered Professional Engineer in the State of Ohio. Tel. 937-255-3636 x4599, email: Anthony.Palazotto@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Additive Manufacturing Related to 15-5 PH Stainless Steel.” Sponsor: AFRL/RW. Funding: $59,000.

“Nonlinear Transonic Aeroelastic Instabilities.” Sponsor: AFRL/RW. Funding: $15,000.

OTHER SIGNIFICANT RESEARCH PRODUCTIVITY

POLANKA, MARC D.,
Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2009 (AFIT/ENY); BS, Mechanical Engineering, University of Dayton, 1992; MS, Mechanical Engineering, Stanford University, 1993; PhD, Mechanical Engineering, University of Texas, 1999. Prior to accepting a position with AFIT, Dr. Polanka served 17 years in Turbine Engine Division of the Air Force Research Laboratory’s Propulsion Directorate. Dr. Polanka’s research interests include aspects of heat transfer, combustion, and fluid mechanics focusing on experimental applications involving turbine and combustor aerodynamics and cooling techniques. He has been published in a variety of journals including the Journal of Turbomachinery, the AIAA Journal of Propulsion and Power, and the Journal of Engineering for Gas Turbines and Power. He also has two patents to his credit. Dr. Polanka is an Associate Fellow of the AIAA, the past Section Chair of the Dayton-Cincinnati Section of the AIAA, and the Honors and Awards Chair for the same section. Dr. Polanka serves as the Faculty representative for the AFIT Student Section branch of AIAA. He is also a Fellow of the ASME and serves on the Executive Board of the K-14 Committee of the International Gas Turbine Institute where he is also a past Point Contact for the annual Turbo Expo conference. AFIT research center affiliation: ANT.
Tel. 937-255-3636 x4714, email: Marc.Polanka@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“AFIT Combustion Laboratory Program Concerning UCC and Secondary Reaction Combustion Phenomena.” Sponsor: AFRL/RQ. Funding: $35,000.

“Combustion Physics under High Centripetal Acceleration.” Sponsor: AFOSR. Funding: $58,596 – Polanka 85%, Rutledge 15%.

REEDER, MARK F.,
Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2002 (AFIT/ENY); BS, Mechanical Engineering, West Virginia University, 1989; MS, Mechanical Engineering, The Ohio State University, 1991; PhD, Mechanical Engineering, The Ohio State University, 1994. Prior to accepting a position with AFIT, Dr. Reeder served as an NRC Research Associate at NASA Glenn and subsequently as the manager of
Research and Development for a manufacturer of industrial mixing equipment. Dr. Reeder’s research interests include all aspects of fluid mechanics with an emphasis on experimental applications involving external aerodynamics, mixing enhancement, and propulsion. Publications include characterizations of store separation from a cavity using pressure sensitive paint and measurements relating to several types of aircraft using 6-DOF balances, particle image velocimetry, filtered Rayleigh scattering, and other diagnostic tools. He has also recently published in the area of low temperature ablation in a supersonic flow as applied to thermal management systems for space access vehicles. Dr. Reeder has been published in a variety of journals including Experiments in Fluids, Journal of Fluid Mechanics, The AIAA Journal, The AIAA Journal of Propulsion and Power, AIAA Journal of Aircraft, the AIAA Journal of Spacecraft and Rockets, Physics of Fluids, NASA Tech Briefs, the AIChE Journal, and Chemical Engineering Progress. He also has four patents to his credit, is a licensed Professional Engineer in the State of Ohio, and is an elected member of the Academy of Distinguished Alumni, Department of Mechanical and Aerospace Engineering, West Virginia University. Dr. Reeder currently serves as the editor-in-chief of the International Journal of Micro Air Vehicles. Dr. Reeder is an Associate Fellow of the AIAA and a member of ASME. Tel. 937-255-3636 x4530, email: Mark.Reeder@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“AFIT/ENY and AFRL/RQV Cooperative Research Agreement.” Sponsor: AFRL/RQ. Funding: $29,000 – Reeder 29%, Dillsaver 27%, Reeder 26%, Bentley 18%.

“Flight Testing’ in the AFIT Low Speed Wind Tunnel Using the MTA System.” Sponsor: AFRL/RW. Funding: $65,000 – Reeder 50%, Cobb 50%.

“Flip-Turn’ Missile Aerodynamic Characterization.” Sponsor: Lockheed Martin. Funding: $80,000 – Reeder 40%, Miller 40%, Crowe 20%.

RUGGLES-WRENN, MARINA B.,
Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2003 (AFIT/ENY); BS, Polytechnic Institute of New York, 1981; MS, Rensselaer Polytechnic Institute, 1983; PhD, Rensselaer Polytechnic Institute, 1987. Dr. Ruggles-Wrenn’s interests center on mechanics of materials and structures, including experimental investigation of material behavior in extreme environments, advanced structural materials, high-temperature structural design methods, and viscoplasticity. Dr. Ruggles-Wrenn has published 140 journal articles and technical reports, and has co-authored 10 books on composite materials and structures and on high-temperature structural design methods. Dr. Ruggles-Wrenn received several research and best paper awards; Stinson Trophy of the National Aernautic Association, Col Gage H. Crocker Outstanding Professor Award, as well as the AFIT Instructor of the Quarter Award. Prior to joining AFIT, Dr. Ruggles-Wrenn was a research scientist at the Oak Ridge National Laboratory (1987-2003). Dr. Ruggles-Wrenn is a member of the Editorial Board of Applied Composite Materials and an Associate Technical Editor of the ASME Journal of Pressure Vessel Technology. Dr. Ruggles-Wrenn is a Fellow of the American Society of Mechanical Engineers (ASME) and a member of the American Ceramic Society. She is the Chair of the ASME Pressure Vessels and Piping Division. Tel. 937-255-3636 x4641, email: Marina.Ruggles-Wrenn@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Fatigue of an Advanced SiC/SiC Composite at Elevated Temperature in Air and in Steam.” Sponsor: AFRL/RX. Funding: $12,500.

“Stressed Oxidation of SiC Fiber in Air and Si(OH)4 Saturated Steam.” Sponsor: AFRL/RX. Funding: $20,000.

Associate Technical Editor, ASME Journal of Pressure Vessel Technology.

RUTLEDGE, JAMES L., Maj,
Assistance Professor of Aerospace Engineering; Department of Aeronautics and Astronautics, AFIT Appointment Date: 2011 (AFIT/ENY); BS, Mechanical Engineering, University of Texas at Austin, 2002; MS, Mechanical Engineering, University of Texas at Austin, 2004; PhD, Aeronautical Engineering, Air Force Institute of Technology, 2009. Maj Rutledge’s research interests include experimental and computational investigations of gas turbine heat transfer, unsteady fluid mechanics, inverse heat transfer and aerothermodynamics. He has published articles in several journals and was awarded the Rohsenow Prize in 2008 by ASME. Maj Rutledge is a member of the ASME K-14 Gas Turbine Heat Transfer Committee, ASME, AIAA, and Tau Beta Pi. He is a registered professional engineer in the State of Texas and has deployed to Afghanistan in support of Operation Enduring Freedom. AFIT research center affiliation(s): CSRA. Tel. 937-255-3636 x4734, email: James.Rutledge@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Film Cooling Data Scaling From Experimental to Engine Conditions.” Sponsor: AFRL/RQ. Funding: $8,715 – Rutledge 75%, Freeman 25%.

SWENSON, ERIC D.,
Associate Professor of Aerospace Engineering, Department of Aeronautics and Astronautics, AFIT Appointment Date: 2006 (AFIT/ENY); BS, Civil Engineering, The Ohio State University, 1993; MS, Astronautical Engineering, Air Force Institute of Technology, 1998; PhD, Aerospace Engineering, University at Texas at Austin, 2006. Dr. Swenson is a retired Lt Col in the Air Force whose more than 25 years of service includes experience as an Astronautical Engineering Professor, Titan Launch Pad Engineer, Civil Engineer, and a Nuclear Measurements Technician. More recently, he has been a key player in AFIT’s recent expansion in space-related experimental research, including the development of 6U CubeSats, a satellite attitude simulator called SimSat, and various other space experiments. His previous research focused on solving multi-million degree of freedom finite element models with viscoelastic materials, satellite design and test, damage detection techniques, and system identification through optimization. He is a Technical Area Editor for the Journal of Small Spacecraft, and he is a member of Chi Epsilon, SPIE, Tau Beta Pi, and AIAA. AFIT research center affiliation(s): ANT and CSRA. Tel. 937-255-3636 x7479, email: Eric.Swenson@afit.edu

TORVIK, PETER J.,
Professor Emeritus of Aerospace Engineering and Engineering Mechanics, Department of Aeronautics and Astronautics, (AFIT/ENY); BS, University of Minnesota, 1960; MS, University of Minnesota, 1962; PhD, University of Minnesota, 1965; BA, Wright State University, 1980. Professor Torvik is a specialist in theory of elasticity, wave propagation, shock and vibration, impact damage in aircraft systems, laser-material interactions, and aircraft survivability/vulnerability. His primary research interests include structural dynamics, specifically damping, impact, and penetration mechanics. Dr. Torvik is the author of over 100 technical papers and reports and some 30 other publications. He served as Head of the Department of Aeronautics and Astronautics, 1980-1990. He is the recipient of the AF Meritorious Civilian Service Award, the AF Exceptional Civilian Service Award, the Outstanding Civilian Career Service Award, USAF, and the John Leland Atwood Award and Medal, AIAA and ASEE. Dr. Torvik is a Fellow of AIAA, a Fellow of the ASME, and a Fellow of Ohio Academy of Science.

BOOKS AND CHAPTERS IN BOOKS

DAVIS, NATHANIEL J., IV,
Professor and Head, Department of Electrical and Computer Engineering, AFIT Appointment Date: 2005 (AFIT/ENG); BSEE, Virginia Polytechnic Institute and State University, 1976; MSEE, Virginia Polytechnic Institute and State University, 1977; PhD, Purdue University, 1985. Dr. Davis’ research interests include computer communications networks, cyber operations, and large scale computer architectures. He is a senior member of the IEEE and a member of the Sigma Xi, Eta Kappa Nu, and Tau Beta Pi honorary societies.
DEVER, MATTHEW C.,
Associate Director of the AF Cyberspace Technical Center of Excellence and the Center for Cyberspace Research, Department of Electrical and Computer Engineering, AFIT appointment Date: 2014 (AFIT/ENG); BS Communications, Ohio University, 1986; MS, Cybersecurity, University of Maryland University College, 2013. Dr. Davis’ research interests include weapon system vulnerabilities and mitigation strategies, cyber operations, and legal aspects of cybersecurity policy. He is also a Certified Ethical Hacker (CEH) and a Certified Information Systems Security Professional (CISSP). AFIT research center affiliation(s): CCR. Tel. 937-255-3636 x4491, email: Matthew.Dever@afit.edu

SPONSOR FUNDED EDUCATIONAL PROJECTS

"ACVAM Course." Sponsor: AFLCMC. Funding: $2,500. [CCR]

GRAHAM, SCOTT R.,
Assistant Professor of Computer Engineering, Department of Electrical and Computer Engineering, AFIT Appointment Date: 2015 (AFIT/ENG); BS, Electrical Engineering, Brigham Young University, 1993; MS, Electrical Engineering, Air Force Institute of Technology, 1999; PhD, Electrical Engineering, University of Illinois at Urbana-Champaign, 2004. Dr. Graham’s research interests include the intersection between real physical systems and the computers that control them. Specific areas of interest include trusted avionics and vehicular computer systems. AFIT research center affiliation(s): ANT and CCR. Tel. 937-255-3636 x4581, email: Scott.Graham@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Avionics Cyber Vulnerability.” Sponsor: AFRL/RY. Funding: $30,000. [CCR]

REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF FULL PAPER REVIEW

GUNAWARDENA, SANJEEV,
Research Assistant Professor of Electrical Engineering, Department of Electrical and Computer Engineering, AFIT Appointment Date: 2014 (AFIT/ENG); BSEE and BS Engineering Physics, Ohio University, 1997; MSEE, Ohio University, 2000; PhD, Ohio University, 2007. Dr. Gunawardena’s research interests include RF design, digital systems design, reconﬁgurable computing, software-deﬁned radio, navigation warfare, and all aspects of GNSS receivers and associated signal processing. AFIT research center affiliation(s): ANT. Tel. 937-255-3636 x4659, email: Sanjeev.Gunawardena@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“GNSS Testbed Development.” Sponsor: AFRL/RY. Funding: $1,324,851 – Gunawardena 90%, Raquet 10%. [ANT]

“GPS Waveform Prototyping Platform (GWPP).” Sponsor: AFRL/RV. Funding: $250,000 – Gunawardena 90%, Raquet 10%. [ANT/CCR]

LAMONT, GARY B.,
Professor of Electrical Engineering, Department of Electrical and Computer Engineering, AFIT Appointment Date: 1970 (AFIT/ENG); Bachelor of Physics, University of Minnesota, 1961; MSEE, University of Minnesota, 1967; PhD, University of Minnesota, 1970. Dr. Lamont teaches courses in computer science and computer engineering. His research interests include: evolutionary computation, artificial immune systems, intrusion and anomaly detection, information security, parallel and distributed computation, combinatorial optimization problems (single objective and multi-objective), software engineering, digital signal processing, and intelligent and distributed control. He has advised many MS and PhD students in these disciplines. Dr. Lamont has authored several textbooks (Multi-Objective EAs, Computer Control), various book chapters, as well as numerous papers. Dr. Lamont was also an engineering systems analyst for the Honeywell Aerospace Division for six years. He is a member of IEEE (senior member) ACM, ASEE, SIAM, Tau Beta Pi, and Eta Kappa Nu. AFIT research center affiliation: ANT. Tel. 937-255-3636 x4718, email: Gary.Lamont@afit.edu

PATENTS (APPLICATION)

MAYBECK, PETER S.,
Professor Emeritus of Electrical Engineering, Department of Electrical and Computer Engineering, AFIT Appointment Date: 1973 (AFIT/ENG); BS, Massachusetts Institute of Technology, 1968; PhD, Massachusetts Institute of
Technology, 1972. Dr. Maybeck’s research interests include optimal estimation and stochastic control Kalman filtering, adaptive estimation, pointing and tracking, optimally aided inertial navigation systems, and multiple model adaptive filtering. He is the author of the widely recognized three-volume reference text, “Stochastic Models, Estimation and Control,” and over 100 technical articles. Dr. Maybeck has received numerous national and local awards including the C. Holmes MacDonald Distinguished Young Electrical Engineering Teach and the ASEE Frederick Emmons Terman Award as the outstanding Electrical Engineering Professor in the US and 1985. He is a fellow of the IEEE.

MENDENHALL, MICHAEL J.,
Assistant Professor of Computer Engineering, Department of Electrical and Computer Engineering, AFIT Appointment Date: 2014 (AFIT/ENG); BS, Computer Engineering, Oregon State University, 1996; MS, Computer Engineering, AFIT, 2001; PhD, Electrical Engineering, Rice University, 2006. Dr. Mendenhall’s research interests include Radio Frequency Intelligence (RFINT), Feature Selection for Intrusion Detection, Dismount Detection and Characterization, persistent Surveillance in Urban Environments, QUALia Exploitation of Sensor Technology (QUEST), and Wind-turbine Radar interaction modeling. AFIT research center affiliation: CCR.

SPONSOR FUNDED RESEARCH PROJECTS

“Hyperspectral Classification and Sensor Fusion for Dismount Skin and Clothing Identification.” Sponsor: 711 HPW. Funding: $54,000.

MERKLE, LAURENCE D.,
Assistant Professor of Computer Science, Department of Electrical and Computer Engineering, AFIT Appointment Date: 2015 (AFIT/ENG); BS Computer and Systems Engineering, Rensselaer Polytechnic Institute, 1987; MSCE, Air Force Institute of Technology, 1992; PhD, Computer Engineering, Air Force Institute of Technology, 1996. Dr. Merkle’s research interests include Computational Science and Engineering, Computing Education, Evolutionary Computation, Secure Computing, Space Situational Awareness. AFIT research center affiliation: CCR. Tel. 937-255-3636 x4526, email: Laurence.Merkle@afit.edu

MILLS, ROBERT F.,
Director of Center for Cyberspace Research, Professor of Electrical Engineering, Department of Electrical and Computer Engineering, AFIT Appointment Date: 2003 (AFIT/ENG); BS, Electrical Engineering, Montana State University, 1983; MS, Electrical Engineering, AFIT, 1987; PhD, Electrical Engineering, University of Kansas, 1994. Dr. Mills’ research interests include network management and security, cyber operations and warfare, insider threat mitigation, and electronic warfare. He is a Senior Member of the IEEE and is a member of the Eta Kappa Nu and Tau Beta Pi honor societies. AFIT research center affiliation: CCR. Tel. 937-255-3636 x4527, email: Robert.Mills@afit.edu

NYKL, SCOTT L.,
Assistant Professor of Computer Science, Department of Electrical and Computer Engineering. AFIT Appointment Date: 2015 (AFIT/ENG); B.S. Software Engineering, University of Wisconsin-Platteville, 2006; MS, Computer Science, Ohio University, 2012; PhD, Computer Science, Ohio University, 2013. Dr. Nykl’s research interests include Computer Graphics, Interactive 3D Graphics, Level of Detail, Image-Based Rendering, GPGPU Programming/Parallel Computation, Distributed Real Time Visualizations, Computer Vision, Computational Geometry, Sensor Fusion, Linear Algebra, Numerical Analysis, Synthetic Vision (SVS), Augmented Reality (AR) Parallel/Concurrent
Programming, Multi-Core/Multi-Threading, Algorithms, Big Data, and Networking, Data Structures. AFIT research center affiliation: ANT and CCR. Tel. 937-255-3636 x4395, email: Scott.Nykl@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Automated Aerial Refueling: Precise Relative Navigation from Stereo Vision, Phase II.” Sponsor: AFRL/RQ. Funding: $130,000 – Nykl 33%, Pecarina 33%, Woolley 33%. [ANT]

REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF ABSTRACT REVIEW

PACHTER, MEIR,
Professor, Department of Electrical and Computer Engineering, AFIT Appointment Date: 1993 (AFIT/ENG); BS, Israel Institute of Technology, 1967; MS, Israel Institute of Technology, 1969; PhD, Israel Institute of Technology, 1975. Dr. Pachter's fields of expertise include automatic control of aircraft and missiles, adaptive control and system identification, inertial and GPS navigation, autonomous control/neural networks/fuzzy logic control, nonlinear control, and applied mathematics. Dr. Pachter has published papers in these areas and in differential games, robotics, and the theory of computational geometry. Dr. Pachter is interested in the application of mathematics to the solution of engineering and scientific problems. His current areas of interest include military operations optimization, cooperative control, estimation and optimization, statistical signal processing, adaptive optics, inertial navigation, and GPS navigation. For his work on adaptive and reconfigurable flight control, he received the AFRL Air Vehicle’s Directorate Foulois Award for 1994 together with Phil Chandler and Mark Mears. AFIT research center affiliation: ANT and CCR. Tel. 937-255-3636 x7247, email: Meir.Pachter@afit.edu

SEAL, MICHAEL D., Maj,
Deputy Department Head, Assistant Professor of Electrical Engineering, Department of Electrical and Computer Engineering, AFIT Appointment Date: 2013 (AFIT/ENG); BS, EE, University of Missouri-Rolla, 2002; MS, EE, Air Force Institute of Technology, 2007; PhD, EE, Air Force Institute of Technology, 2013. Maj Seal’s research interests are Plasmonic & Frequency Selective Surfaces, Laser Detection & Ranging (LADAR), and optical metrology. Member of SPIE. Tel. 937-255-3636 x3369, email: Michael.Seal@afit.edu

STONE, SAMUEL J., Maj,
Assistant Professor of Electrical Engineering, Department of Electrical and Computer Engineering, AFIT Appointment Date: 2013 (AFIT/ENG); BS, Computer Engineering, Wright State University, 2003; MS, Electrical Engineering, Air Force Institute of Technology, 2008; PhD, Electrical Engineering, Air Force Institute of Technology, 2013. Maj Stone’s research interests include Radio Frequency Intelligence, VLSI design, anti-tamper semiconductor hardware design, counterfeit device detection, and device design verification. AFIT research center affiliation: CCR.

SPONSOR FUNDED RESEARCH PROJECTS

“Phase I Support RF-Based Characterization of Systems.” Sponsor: AFRL/RY. Funding: $25,000. [CCR]
“Side-Channel Based Integrity Assessment and Intrusion Detection of Industrial Controllers.” Sponsor: Power Fingerprinting. Funding: $20,000. [CCR]

REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF FULL PAPER REVIEW

J. Wylie, S. Stone, B. Mullins “Detecting a Weakened Encryption Algorithm in Microcontrollers Using Correlation-Based Anomaly Detection,” 11th International Conference on Cyber Warfare and Security, Boston University, Boston, MA, Mar 2016. [CCR]

STRINGER, JEREMY P., Lt Col,
Electrical Engineering Division Chief, Assistant Professor of Electrical Engineering, Department of Electrical and Computer Engineering, AFIT Appointment Date: 2013 (AFIT/ENG); BS, EE, United States Air Force Academy, 1998; MS, EE, Air Force Institute of Technology, 2000; PhD, EE, Air Force Institute of Technology, 2013. Lt Col Stringer’s research interests are Adaptive Beamforming, HF-Direction Finding, Passive Radar, Cognitive Radar, and Computational Electromagnetics. Member of IEE, HKN, and TBP, Tel. 937-255-3636 x4684, email: Jeremy.Stringer@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Millimeter Wave Radar Topics.” Sponsor: AFRL/RY. Funding: $45,000.

TEMPLE, MICHAEL A.,
Professor of Electrical Engineering, Department of Electrical and Computer Engineering, AFIT Appointment Date: 1996 (AFIT/ENG); BSE (1985) and MSE (1986), Southern Illinois University, Edwardsville IL; PhD, Air Force Institute of Technology, 1993. Dr. Temple’s research interests include passive emitter identification, tracking and location using RF Distinct Native Attribute (RF-DNA) fingerprinting and complex waveform generation via Spectrally Modulated, and Spectrally Encoded (SMSE) processing. Sponsored research efforts in Command, Control, Communications and Intelligence (C3I), and Electronic Warfare (EW), as adopted by and/or transitioned to agencies within the US Department of Defense, has provided over $2M in R&D Technology benefit. Senior member of IEEE since Jan 2002. AFIT research center affiliation: CCR. Tel. 937-255-3636 x4279, email: Michael.Temple@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“RF-EW Systems Support.” Sponsor: AFRL/RY. Funding: $50,000. [CCR]

“RFINT for Commercial Communications.” Sponsor: Undisclosed. Funding: $55,186. [CCR]

TERZUOLI, ANDREW J., Jr.,
Associate Professor of Electrical Engineering, Department of Electrical and Computer Engineering, AFIT
Appointment Date: 1982 (AFIT/ENG); BS, Electrical Engineering, Polytechnic Institute of Brooklyn, 1969; MS, Electrical Engineering, Massachusetts Institute of Technology, 1970; PhD, Electrical Engineering, The Ohio State University, 1982. Dr. Terzuoli’s research areas have included Antennas and Electromagnetics; Computer Model Based Studies; Application of Parallel Computation, VLSI Technology, and RISC Architecture to Numerical and Transform Methods; Remote Sensing and Communication; Passive RF Sensing; Wave Scattering, Radar Cross Section, and Stealth (LO/CLO) Technology; Machine Vision and Image Processing; and Automated Object Recognition. He has published numerous reports and articles in journals and conference proceedings in these and related areas. His research is funded by various agencies including AFRL and NASIC. Prior to joining AFIT in 1982, Dr. Terzuoli was a research associate at the ElectroScience laboratory at The Ohio State University and was a member of the technical staff at the Bell Telephone Laboratories in New Jersey. He is an active officer of IEEE and a fellow of the Electromagnetics Academy. AFIT research center affiliation(s): ANT, CSRA. Tel. 937-255-3636 x4717, email: Andrew.Terzuoli@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Remote Sensing and Communications for Advanced Technical Exploitation.” Sponsor: NASIC. Funding: $30,000.

“Structural Design Considerations for Very-Large Space Antenna.” Sponsor: AFOSR. Funding: $50,436. [CSRA]

5.3.3. FACULTY BIOGRAPHIES & RESEARCH OUTPUT

Notes: Research Center affiliations are listed in [ ] if applicable. Shared credit for funding awards is indicated by the percentages shown for each faculty member associated with the project.

BARTLETT, KEVIN S., Lt Col,
Adjunct Professor of Atmospheric Science, Department of Engineering Physics, AFIT Appointment Date: 2012 (AFIT/ENP); BS, University of California, Los Angeles, 1997; MS, Air Force Institute of Technology, 2004; PhD, SUNY-Albany, 2013. Lt Col Bartlett's research covers a wide range of topics in the atmospheric sciences to include problems in numerical weather prediction, dust, turbulence and thunderstorm modeling, as well as lightning, radar and satellite exploitation for space launch, Hypersonic flight, UAV, directed energy and general aviation operations. Before joining AFIT he was Commander, Detachment 1, 18th Weather Squadron, and Staff Weather Officer to the 3rd Infantry and 10th Mountain Divisions in Iraq 2008 and deployed to Afghanistan as the Chief Meteorologist for NATO and US Forces in 2014. He is a member of the American Meteorological Society, the Air Weather Association, and the American Geophysical Union. He currently serves as the AFLCMC Geosciences Branch Chief.

REFERRED JOURNAL PUBLICATIONS

BAILEY, WILLIAM F.,
Associate Professor Emeritus of Physics, Department of Engineering Physics, AFIT Appointment Date: 1978 (AFIT/ENP); BS, United States Military Academy, 1964; MS, The Ohio State University, 1966; PhD, Air Force Institute of Technology, 1978. Dr. Bailey’s research interests center on weakly ionized gases and reactive kinetics with special applications to semiconductor processing in gas discharges, shock characterization in ionized flows, and solutions of the inhomogeneous electron kinetic equation. Dr. Bailey has published over 20 papers in refereed conference proceedings and international journals and chaired over 25 theses and dissertations. He is a member of Tau Beta Pi, Sigma Pi Sigma, and Sigma Xi. Tel. 937-255-3636 x4501, email: William.Bailey@afit.edu

REFERRED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF ABSTRACT REVIEW

BRIDGMAN, CHARLES J.,
Professor Emeritus of Nuclear Engineering, Department of Engineering Physics, AFIT Appointment Date: 1960 (AFIT/ENP); BS, United States Naval Academy, 1952; MS, North Carolina State University, 1958; PhD, North Carolina State University, 1963. Dr. Bridgman’s interests centered on nuclear weapon effects and military nuclear power applications. He was associated with nuclear weapon defense since 1952. He was a member of the first military team to be operational on the H-bomb. His research interest was nuclear weapon fallout modeling. He was the author of a textbook, “Introduction to the Physics of Nuclear Weapons Effects,” and numerous technical articles in a wide variety of journals. In his 38 years on the AFIT faculty, he chaired over 120 MS theses and PhD dissertations. He received several awards, including Tau Beta Pi Teacher of the Year, the Gage H. Crocker Outstanding Professor Award, and the Order of the Nucleus Award. Dr. Bridgman was a Fellow of the American Nuclear Society.

BURGGRAF, LARRY W.,
Professor of Engineering Physics and Chemical Physics, Department of Engineering Physics, AFIT Appointment Date: 1994 (AFIT/ENP); BA, Chemistry, Olivet Nazarene University, 1968; MS, Chemistry, The Ohio State University, 1971; MA, Applied Mathematics, University of West Florida, 1977; PhD, Chemistry, University of Denver, 1981; Postdoctoral Associate, Computational Chemistry, Iowa State University, 1993. Dr. Burggraf conducts experimental and theoretical research in physical chemistry and materials chemistry including radiation biophysics, exotic atom chemistry, positron spectroscopy, surface and cluster spectroscopy, excitonic nanomaterials, atomic force microscopy, gamma spectroscopy and gamma imaging to solve DOD, DHS and DOE problems in WMD non-proliferation. Theoretical research to model surfaces, clusters, nanomaterials and exotic-atom molecules applies
quantum mechanics modeling to interpret experimental results. Dr. Burggraf has authored more than 55 refereed archival publications. He holds one patent. He has successfully advised 45 Master’s students, seven PhD students, and is currently advising one MS and one PhD student. Tel. 937-255-3636 x4507, email: Larry.Burggraf@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Characterization of Nanoscale Deformation in Polymer Nanocomposite using Positron Annihilation Spectrometry.” Sponsor: AFRL/RX. Funding: $15,000.

“Modeling Novel SiC Color Centers in Doped Organosilicon Polymers.” Sponsor: AFRL/RX. Funding: $40,000 – Burggraf 10%, Lutz 90%.

REFEREED JOURNAL PUBLICATIONS

PATENTS

BUTLER, SAMUEL D., Maj,
Assistant Professor of Physics, Department of Engineering Physics, AFIT Appointment Date: 2015 (AFIT/ENP); BS, Applied Physics (Computer Science Emphasis), Brigham Young University, 2004; MS, Physics, Air Force Institute of Technology, 2010; PhD, Physics, Air Force Institute of Technology, 2015. Maj Butler’s research is primarily focused on development of optical scatter models for use in remote sensing applications, particularly in the IR. He has also previously been involved in munitions development, quantum mechanical scattering, cryptography, and quantum information. Maj Butler has published one refereed journal article and four conference presentations. He has also deployed to Afghanistan as a deputy IG in support of Operation Enduring Freedom. Maj Butler is a member of SPIE. AFIT research center affiliation(s): CDE. Tel. 937-255-3636 x4385, email: Samuel.Butler@afit.edu

REFEREED JOURNAL PUBLICATIONS

CLINTON, JUSTIN A.,
Assistant Professor of Nuclear Engineering, Department of Engineering Physics, AFIT Appointment Date: 2013 (AFIT/ENP); BS, Nuclear Engineering, 2004; PhD, Nuclear Engineering, Rensselaer Polytechnic Institute, Troy, NY,
2011. Dr. Clinton’s research interests are in the area of radiation detection, both experimental and theoretical modeling, as it applies to nuclear forensics. His expertise includes particle transport, Monte Carlo methods, analog and digital data acquisition and analysis, and detector development. Dr. Clinton is a member of the American Nuclear Society (ANS) as well as the Institute of Electrical and Electronics Engineers (IEEE). AFIT research center affiliation(s): ANT. Tel. 937-255-6565 x4586, email: Justin.Clinton@afit.edu

REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF ABSTRACT REVIEW

FEE, JAMES R. Jr., Lt Col
Assistant Professor of Nuclear Engineering, Department of Engineering Physics, AFIT Appointment Date: 2015 (AFIT/ENP); BS, Purdue University, 1997; MS, Air Force Institute of Technology, 2002; PhD, Air Force Institute of Technology, 2015. Lt Col Fee’s research is primarily focused on computational simulation of nuclear weapon effects with a focus in electromagnetic pulse. He has also previously managed radiation hardened microelectronics programs for satellite and missile systems. Lt Col Fee has published one refereed journal article and one conference presentation. He also deployed to Iraq as an Intelligence Advisor in support of Operation New Dawn. Lt Col Fee is the faculty advisor and member of the American Nuclear Society and additionally holds a Master of Military Operational Art and Science from Air University (2012). Tel. 937-255-3636 x4438, email: James.Fee@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

FERDINANDUS, MANUEL R., Maj
Assistant Professor of Optical Sciences, Department of Engineering Physics, AFIT Appointment Date: 2014 (AFIT/ENP); BS, Seattle University, 1999; MS, Rochester Institute of Technology, 2007; PhD, University of Central Florida, 2014. Maj Ferdinandus performs research into nonlinear optics, optical limiting, infrared laser sources and hyperspectral target detection. Previously he has worked in space operations and satellite system acquisition. He has published two refereed journal articles and seven conference presentations. Maj Ferdinandus is a member of the Optical Society of America. Tel. 937-255-6565 x4339, email: Manuel.Ferdinandus@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

Fiorino, Steven T.,
Director, Center for Directed Energy, and Associate Professor of Atmospheric Physics, Department of Engineering Physics, AFIT Appointment Date: 2003 (AFIT/ENP); BS, Geography (Climatology), The Ohio State University, 1987; BS, Meteorology, Florida State University, 1989; MS, Atmospheric Dynamics, The Ohio State University, 1993; PhD, Physical Meteorology, Florida State University, 2002. Dr. Fiorino’s research interests include retrieving environmental parameters via microwave remote sensing; developing signal processing algorithms to fuse meteorological data collection with non-weather ISR platforms; evaluating uncertainty in high-energy laser engagement due to atmospheric effects; and improving microphysical characterizations for nuclear fallout, transport, and dispersion. He has published broadly in meteorological, directed energy, and military journals. Dr. Fiorino is a member of the American Meteorological Society, American Institute of Aeronautics and Astronautics, the Directed Energy Professional Society, Society of Photo-Instrumentation Engineers (SPIE), and additionally holds a Master of Military Operational Art and Science from Air University (2003). AFIT research center affiliation(s): CDE. Tel. 937-255-3636 x4506, email: Steven.Fiorino@afit.edu

FRANZ, ANTHONY L., Lt Col,
Assistant Professor of Physics, Department of Engineering Physics, AFIT Appointment Date: 2012 (AFIT/ENP); BS, United States Air Force Academy, 1992; MS, Air Force Institute of Technology, 1997; PhD, University of Maryland, 2007. Lt Col Franz’s research focuses on lasers and optics. His recent work has focused on developing light weight diffractive optics for use on satellites and novel approaches for imaging and hyperspectral imaging systems. Before joining AFIT, he was a physics faculty member at the Air Force Academy for eight years and deployed to Iraq and Afghanistan. He has also worked in nuclear treaty monitoring and infrared missile engagement modeling and simulation. Lt Col Franz is a member of the American Association of Physics Teachers and the American Physical Society. AFIT research center affiliation(s): CSRA and CTISR. Tel. 937-255-3636 x4429, email: Anthony.Franz@afit.edu

**GILES, NANCY C.,**  
Professor of Physics and Head, Department of Engineering Physics, AFIT Appointment Date: 2009 (AFIT/ENP); BS, University of North Carolina at Chapel Hill, 1981; PhD, North Carolina State University, 1987. Dr. Giles’ research focuses on solid-state physics: photoluminescence (PL), absorption, Raman, and magnetic resonance (EPR) spectroscopy leading to identification of point defects in semiconducting and optical materials; PL excitation and time-resolved PL spectroscopies; nonlinear optical materials; laser-host materials; and scintillators. She is the author of 182 archival publications in refereed journals. Before joining AFIT, she was a physics faculty member at West Virginia University for 19 years. Her current work includes studies of scintillator materials for improved detection of nuclear radiation, wide band-gap semiconductors for photorefractive applications, and infrared non-linear optical materials for infrared countermeasures. Dr. Giles is a member of the Optical Society of America, American Physical Society, and Materials Research Society. Tel. 937-255-3636 x4601, email: Nancy.Giles@afit.edu

**GOLDEN, ERIC M., Maj,**  
Assistant Professor of Physics, Department of Engineering Physics, AFIT Appointment Date: 2014 (AFIT/ENP); BS, West Virginia University, 2003; MS, Air Force Institute of Technology, 2008; PhD, Air Force Institute of Technology, 2014. Maj Golden’s current research is focused on the characterization of point defects in semiconductors (Sn$_2$P$_2$S$_6$, TiO$_2$, ZnO) and nonlinear optical materials (CdSiP$_2$, KTiOPO$_4$). Characterization techniques of interest include electron paramagnetic resonance, electron-nuclear double resonance, Fourier transform infrared spectroscopy, and photoluminescence. His previous assignments include the Air Force Research Laboratory Directed Energy and Munitions Directorates where he managed and performed research in space situational awareness and hardware-in-the-loop simulation.

GROSS, KEVIN C., Director, Center for Technical Intelligence Studies & Research, and Associate Professor of Physics, Department of Engineering Physics, AFIT Appointment Date: 2008 (AFIT/ENP); BS, Wright State University, 1998; MS, Wright State University, 2001; PhD, Air Force Institute of Technology, 2007. Dr. Gross’ main interests are remote sensing, spectroscopy, and radiative transfer, and his research is focused on the remote sensing of chemically evolving systems in the battlespace (detonation fireballs, muzzle flashes, rocket and jet engine plumes, smokestack effluents, etc.) using hyperspectral, radiometric and high-speed imagery techniques. He is developing hyperspectral imaging and spectral retrieval algorithms for quantitative combustion and flow field diagnostics. He is also leading a new effort to develop polarimetric hyperspectral imaging for improved target detection and robust material identification. He has 24 archival publications in peer reviewed journals and has secured over $3M in external funding. He has successfully chaired nine MS students, one PhD student, and is currently advising five PhD students. He is a member of the Optical Society of America (OSA), SPIE, and the Combustion Institute. AFIT research center affiliation(s): CTISR and CDE.

REFEREED CONFERENCE PAPERS ON THE BASIS OF ABSTRACT REVIEW

HAWKS, MICHAEL R.,
Research Assistant Professor of Optical Engineering (through ORISE), Department of Engineering Physics, AFIT Appointment Date: 2008 (AFIT/ENP); BS, Astrophysics, Michigan State University, 1991; MS, Engineering Physics, AFIT, 1993; PhD, Optical Sciences, AFIT, 2006. Dr. Hawks’ main research interests include electro-optic and infrared (EO/IR) remote sensing. Specific application areas include monocular passive ranging and hyperspectral and polarimetric imaging. He previously taught at the United States Air Force Academy and has conducted research in chemical lasers, space object identification, chem/bio agent detection, infrared countermeasures, nuclear detonation detection, and other remote sensing applications at the Air Force Research Laboratory and other assignments. He has received 12 research grants, chaired nine MS committees and published 26 technical papers and reports. He is a member of the Optical Society of America and SPIE and is a retired USAF Lt Col. Tel. 937-255-3636 x4828, email: Michael.Hawks ctr@afit.edu

REFEREED CONFERENCE PAPERS ON THE BASIS OF ABSTRACT REVIEW

HENGEHOLD, ROBERT L.,
Professor Emeritus of Physics, Department of Engineering Physics, AFIT Appointment Date: 1961 (AFIT/ENP); AB, Thomas More College, 1956; MS, University of Cincinnati, 1961; PhD, University of Cincinnati, 1965. Dr. Hengehold’s research areas center on experimental solid state physics, semiconductor physics, optical diagnostics, and electron and laser spectroscopy. He is the author of over 100 archival publications and over 215 presentations at technical meetings. He has served as advisor on over 17 doctoral dissertations and 80 master’s theses. He is currently carrying out studies of (1) depth resolved cathodoluminescent spectroscopy of materials suitable for neutron absorbing
semiconductor solid state detectors and (2) optical characterization of compound semiconductor materials and superlattice structures for mid-infrared diode lasers and detectors. This work involves collaborative efforts with the Directed Energy and Sensors Directorates at AFRL and DTRA. Dr. Hengehold received the Air University Commander’s Award for Faculty Achievement in 1982, the Gage H. Crocker Outstanding Professor Award in 1996, the Outstanding Professional Achievement Award from the Affiliate Society Council of the Engineering and Science Foundation of Dayton in 1997, and the General Bernard A. Schriever Award in 1999. He was elected a Fellow of the American Physical Society in 2008. Tel. 937-255-3636 x4502, email: Robert.Hengehold@afit.edu

HOGSED, MICHAEL R., Lt Col,
Assistant Professor of Engineering Physics, Department of Engineering Physics, AFIT Appointment Date: 2015 (AFIT/ENP); BS, Baylor University, 1997; MS, Oklahoma State University, 1999; PhD, Air Force Institute of Technology, 2005. Lt Col Hogsed’s research focuses on semiconductor device characterization and radiation effects on advanced microelectronic materials and devices. He has published three refereed journal articles. Currently under investigation are hexagonal boron nitride (h-BN) and germanium tin (Ge1-xSnx) materials, as well as graphene field effect transistors. Lt Col Hogsed also has 10 years experience in the Air Force nuclear enterprise as an analyst and S&T manager for a variety of nuclear matters, to include treaty monitoring, weapon employment planning factors, and counterproliferation intelligence. Tel. 937-255-3636 x4547, email: Michael.Hogsed@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Advanced Dielectric Materials Characterization for Space Based Electronics.” Sponsor: Undisclosed. Funding: $60,000 – Hogsed 75%, McClory 25%.

JENNIGES, JANELLE V., Maj,
Assistant Professor of Space Physics, Department of Engineering Physics, AFIT Appointment Date: 2015 (AFIT/ENP); BS, Meteorology- Climatology, University of Nebraska - Lincoln, 2005; MBA, University of Phoenix, 2009; MS, Applied Physics, Air Force Institute of Technology, 2011; PhD, Physics, Utah State University, 2015. Maj Jenniges’ research covers a wide range of topics in the space physics to include the improved specification of ionospheric space weather models, the structure of the high-latitude electric fields, and the transition of cutting-edge research to operational forecast products. Before her assignment at AFIT, Maj Jenniges served as a forecaster in the 21st Operational Weather Squadron in Germany and as a Staff Weather Officer in 17th Air Force during the standup of Air Forces Africa. She was also the flight commander of the Space Weather Operations Center in Omaha, NE. She is a member of Tau Beta Pi National Honor Society, the Golden Key National Honor Society, and the American Geophysical Union. Tel. 937-255-3636 x4646, email: Janelle.Jenniges@afit.edu

LEWIS, C. DAVID, Maj,
Assistant Professor of Physics, Department of Engineering Physics, AFIT, Appointment Date: 2014 (AFIT/ENP); BS/BA, Physics/Chemistry, Duke University, 2005; MS, Applied Physics, Air Force Institute of Technology, 2009; PhD, Physics, Air Force Institute of Technology, 2011. Maj Lewis’ primary research interests focus on computationally modeling quantum mechanical, electrodynamical, and aeronautical phenomenon for applications to various classes of lasers, hypersonic/plasma/EM interactions, interaction of microwaves with electronics, and chemical/biological agent neutralization. Before joining AFIT, Maj Lewis has served in a number of scientific roles including assignments at AFRL Sensors Directorate and the Defense Threat Reduction Agency (DTRA). At AFRL, he was a lead researcher on electronic attack techniques to disrupt/disable surveillance radars, small UAVs, and IEDs. At DTRA, he was chief scientist for offensive counter-WMD advanced technologies where he brought together directed energy, access denial technologies, and counter-communication techniques to develop highly asymmetrical capabilities to hold at risk chemical and biological production, storage facilities, and the means to employ those weapons. Tel. 937-255-3636 x4695, email: Charlton.Lewis@afit.edu

LEWIS, DOUGLAS R., LTC,
Assistant Professor of Biodefense Science, Department of Engineering Physics, AFIT Appointment Date: 2012 (AFIT/ENP); BS, Biology, USAF Academy 1991; MS, Genetics, Pennsylvania State University 1995; PhD, Biodefense, George Mason University 2012. LTC Lewis’ previous research focused on genetic components of the insect immune system, genetic response to laser induced damage, peptide capture of biological agents, genetic identification of smallpox, and the organizational factors which have influenced the development of the US Biodefense program. Before joining AFIT, he served 16 years in the US Air Force and five years in the US Army to include
assignments as an aircraft maintenance officer and as an Assistant Professor of Biology at the Air Force Academy. He also served in counter-WMD positions with the Defense Intelligence Agency (DIA), Air Staff, as an US/UK exchange scientist and with the Defense Threat Reduction Agency (DTRA). His current research is investigating the genetic components of extreme radiation resistance in bacteria. His other interest is investigating the possibility of developing a biological collection network based upon native collection entities. Tel. 937-255-3636 x4569, email: Douglas.Lewis@afit.edu

LI, ALEX G.,
Research Associate Professor, Department of Engineering Physics, AFIT Appointment Date: 1995 (AFIT/ENP); BS, Changchun University of Science and Technology, 1982; PhD, Shanghai Institute of Optics and Fine Mechanics, Chinese Academy of Sciences, 1990. Dr. Li has over 20 years of research experience using AFM, SEM, FTIR, Raman, photoluminescence, EPR, ESCA, and XRD to characterize glass, ceramics, semiconductors, polymers, nano-carbon composites, and biological materials. He has published, mostly as the lead author, over two dozen peer-reviewed journal articles, including one top-ten download article of the Institute of Physics (IOP). He also conducted computer modeling of thermal transport and thermal stress in polymers, composites, and other advanced multifunctional materials. Dr. Li invented a novel AFM nano-patterning technique for producing sub-100 nm two-dimensional nanostructures in polymers and held one patent for a proton conductor material. He was a post-doctoral fellow at Nagoya Institute of Technology and Aichi Institute of Technology prior to working for AFIT in 1995. His research included experiment and computer modeling of thermal, mechanical, and electrical properties of granular systems, memristive devices and systems, biomaterials, ceramic matrix composites (CMC), and polymer matrix composites ceramic (PMC).

REFERED JOURNAL PUBLICATIONS

LOPER, ROBERT D.,
Assistant Professor of Physics, Department of Engineering Physics, AFIT Appointment Date: 2014 (AFIT/ENP); BS, University of Dayton, 1994; MS, University of Texas at Dallas, 1998; MTS, United Theological Seminary, 2011; PhD, Air Force Institute of Technology, 2013. Dr. Loper’s research interests are in computational physics, centering on noble gas laser systems, and space physics, centering on solar astrophysics, magnetospheric physics, and the near-Earth space environment. Dr. Loper is a member of Tau Beta Pi and Sigma Pi Sigma. Tel. 937-255-3636 x4333, email: Robert.Loper@afit.edu

MAGNUS, AMY L.,
Research Assistant Professor, Department of Engineering Physics, AFIT Appointment Date: 2007 (AFIT/ENP); BSEE, Rochester Institute of Technology, 1990; MSEE, Air Force Institute of Technology, 1995; PhD, Air Force Institute of Technology, 2003. Dr. Magnus conducts and manages research in machine intelligence, near and remote sensing, pattern recognition, network science, and distributed intelligence with particular interest in signal to symbol translations and query based intelligence assessments of sensor management systems. She designs dynamic multi-modal experiments for Multi-INT analysis of kinetic events and interactive teams to ensure authoritative reporting of actionable information. She also designs assessment tools that for unobtrusive interrogation of human subjects in order to reveal competency and stress associated with interactions with data, physical interfaces, and other forms of intelligence. Dr. Magnus has published 16 articles, chaired two MS thesis committees, and is writing a book on human and computer intelligence. She is a retired Major, USAF. Tel. 937-255-3636 x4555, email: Amy.Magnus@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

MARCINIAK, MICHAEL A.,
Professor of Physics, Department of Engineering Physics, AFIT Appointment Date: 1999 (AFIT/ENP); BS, St. Joseph’s College, 1981; BSEE, University of Missouri, 1983; MSEE, Air Force Institute of Technology, 1987; PhD, Air Force Institute of Technology, 1995. Dr. Marciniak’s research interests include various aspects of light-matter
interaction, including (1) polarimetric scatterometry of nanostructured materials, such as photonic crystals, plasmonic materials, and optical meta-materials; (2) bidirectional reflectance distributions for optical signatures; and (3) high-energy laser damage assessment. He has published 26 refereed and 68 other publications and chaired 7 PhD and 49 MS thesis committees. He holds one patent. He is a retired Lt Col, USAF, with 22 years of service. AFIT research center affiliation: CDE and CTISR. Tel. 937-255-3636 x4529, email: Michael.Marciniak@afit.edu

Bintz, J.R., Mendenhall, M.J., and Marciniak, M.A., “Human skin's bidirectional reflectance distribution function and its impact on human skin detection,” presented at the 711 Human Performance Wing Technology Day held on July 2016 at Wright-Patterson AFB OH. [CTISR]

MATHEWS, KIRK A.,
Professor Emeritus of Nuclear Engineering, Department of Engineering Physics, AFIT Appointment Date: 1987 (AFIT/ENP); BS, California Institute of Technology, 1971; MS, Air Force Institute of Technology, 1982; PhD, Air Force Institute of Technology, 1983. Dr. Mathews’ research interests center on computational methods for neutral particle radiation transport and modeling and analysis of nuclear phenomena and measurements, including enrichment cascade modeling, high altitude radiation transport, blast and shock, nuclear thermal radiation, deconvolution of radiation spectra, and statistical analysis of nuclear measurements. Dr. Mathews has published 20 papers in refereed journals and 21 conference proceedings and chaired 35 theses and 13 dissertations. He is a member of the American Nuclear Society and Tau Beta Pi.
MCCLORY, JOHN W.,
Associate Professor of Nuclear Engineering, Department of Engineering Physics, AFIT Appointment Date: 2008 (AFIT/ENP); BS, Physics, Rensselaer Polytechnic Institute, 1984; MS, Physics, Texas A&M University, 1993; PhD, Nuclear Engineering, Air Force Institute of Technology, 2008. Dr. McClory’s expertise is in radiation effects, nuclear physics, and nuclear weapon effects. His research includes determining the effect of space and nuclear weapon radiation on electronic and structural materials. It also includes the interaction of radiation with matter and the use of nuclear reactions to inform nuclear forensics techniques. He has advised 14 PhD students (six current) and 30 M.S. students (two current), received 15 research grants, and published 65 journal articles during his time on the AFIT faculty. He is a member of the IEEE Nuclear and Plasma Sciences Society, American Nuclear Society, and Materials Research Society. Tel. 937-255-3636 x7308, email: John.McClory@afit.edu

NAVA, OMAR A., Maj.
Assistant Professor of Atmospheric Science, Department of Engineering Physics, AFIT Appointment Date: 2016 (AFIT/ENP); BS, United States Air Force Academy, 2005; BS, Naval Postgraduate School, 2006; MS, Southern Methodist University, 2010; MS, Air Force Institute of Technology, 2011; PhD, University of California Los Angeles, 2016. Maj Nava’s research interests cover a variety of topics in atmospheric science to include problems in numerical weather prediction, tropical meteorology, mesoscale processes, and space weather. Before joining AFIT Faculty Pipeline, he was the Chief of Weather Operations at the Joint Space Operations Center in Vandenberg AFB, CA. He has seven archival publications and presentations. He is also a member of the American Meteorological Society and American Geophysical Union. Tel. 937-255-3636 x4518, email: Omar.Nava@afit.edu

O’DAY, BUCKLEY E., LTC,
Assistant Professor of Nuclear Engineering, Department of Engineering Physics, AFIT Appointment Date: 2015 (AFIT/ENP); BS, Civil Engineering, United States Military Academy, 1996; MIM, Master of International Management, University of Maryland University College, 2005; MS, Nuclear Engineering, Air Force Institute of Technology, 2009; PhD, Nuclear Science and Engineering, Massachusetts Institute of Technology, 2015. LTC O’Day’s research interests cover a variety of topics in nuclear physics and nuclear engineering to include nuclear weapon effects, nuclear nonproliferation, nuclear counterproliferation, radiation health physics, and radiation detection. LTC O’Day is a basic branch Infantry Officer and a Nuclear Counterproliferation officer. He has advised one PhD students and one MS student received one research grant, and published one journal article during his time on the AFIT faculty. He is a member of the American Nuclear Society and a research affiliate with the Department of Nuclear Science and Engineering at the Massachusetts Institute of Technology. Tel. 937-255-3636 x4609, email: Buckley.O’Day@afit.edu
PERRAM, GLEN P.,
Professor of Physics, Department of Engineering Physics, AFIT Appointment Date: 1989 (AFIT/ENP); BS, Cornell University, 1980; MS, Air Force Institute of Technology, 1981; PhD, Air Force Institute of Technology, 1986. Dr. Perram’s research interests include high power chemical lasers, optically pumped gas phase lasers, laser-material interactions, hyperspectral imaging, reaction kinetics, atomic and molecular spectroscopy, environmental science, photochemistry, optical diagnostics, and remote sensing. He has advised 36 PhD and 49 MS students, received 47 research grants, and published over 88 journal articles during his 27 years on the AFIT faculty. Dr. Perram is a fellow of the Directed Energy Professional Society and a Registered Professional Engineer in the State of Ohio. AFIT research center affiliation: CDE and CTISR. OTHER SIGNIFICANT RESEARCH PRODUCTIVITY

PETROSKY, JAMES C.,
Professor of Nuclear Engineering, Department of Engineering Physics, AFIT Appointment Date: 2000 (AFIT/ENP);
BA, Engineering Physics/Computer Science, Millersville University of Pennsylvania, 1984; MS, Engineering Physics,
Rensselaer Polytechnic Institute, 1992; PhD, Engineering Physics, Rensselaer Polytechnic Institute, 1995. Dr. Petrosky
has expertise in radiation effects on electronic devices, EMP, experimental design, radiation detection, and nuclear
weapon effects. His research spans narrow and wide band gap materials using combinations of electrical, optical, and
absorption spectroscopy to gain information on the damaging effects of ionizing and non-ionizing radiation.
Experimental techniques include I-V(T), C-V(T), photoluminescence spectroscopy, Hall Effect, x-ray and UV photo
spectroscopy; applications of measurement techniques in harsh environments/in-situ measurements and obtaining real-
time data. Applications include electronic switches and actuators, RF/IR sensors, force transducers, and electronics
controls for use in the space and nuclear weapons environment. Dr. Petrosky has successfully chaired eight PhD
students, 42 Master’s students, and mentored and supported four post-doctoral researchers.

PHILLIPS, GRADY T.,
Research Assistant Professor of Engineering Physics (through ORISE), Department of Engineering Physics, AFIT Appointment Date: 2014 (AFIT/ENP); BS, Physics, Wofford College, 1990; BA, Mathematics, Wofford College, 1990; MS, Physics, Clemson University, 1993; PhD, Applied Physics, Air Force Institute of Technology, 2006. Dr. Phillips’ research interests include remote sensing encompassing spectral signatures from laser/material interactions, hyperspectral imagery, and environmental monitoring, and experimental research utilizing laser physics, spectroscopy, chemical kinetics, and flow dynamics to advance technologies in high power chemical lasers, gas phase lasers, and optical diagnostics. AFIT research center affiliation: CDE. Tel. 937-255-3636 x4643, email: Grady.Phillips@afit.edu

OTHER SIGNIFICANT RESEARCH PRODUCTIVITY

RICE, CHRISTOPHER A.,
Research Assistant Professor, Department of Engineering Physics, AFIT Appointment Date: 2012 (AFIT/ENP); BS, Electrical Engineering, Cedarville University, Cedarville Ohio 2004; MS, Electrical Engineering, AFIT, Wright-Patterson AFB, Ohio, 2006; PhD, Applied Physics, AFIT, Wright-Patterson AFB, Ohio, 2012. Dr. Rice is interested in topic areas related to high energy lasers, remote sensing, and optical diagnostics. His work on specific research topics currently include atmospheric propagation of diode pumped alkali lasers; diode pumped alkali and rare gas laser gain construction; aerosol measurement and validation; modeling, simulation, and validation of directed energy simulations; and remote sensing. AFIT research center affiliation: CDE. Tel. 937-255-6565 x4375, email: Christopher.Rice@afit.edu

OTHER SIGNIFICANT RESEARCH PRODUCTIVITY

RIES, HEIDI R.,
Professor of Physics, Department of Engineering Physics, AFIT Appointment Date: 1999 (AFIT/ENP); Dean for Research, Graduate School of Engineering and Management (AFIT/ENR); Interim Dean, Graduate School of Engineering and Management (2013); BS, Physics, The Ohio State University, 1982; MS, Physics, The Ohio State
University, 1984; PhD, Applied Physics, Old Dominion University, 1987. Dr. Ries serves as AFIT’s chief research officer, primary liaison to the Air Force Research Laboratory, and served as Interim Dean during FY13. Dr. Ries’ research interests include radiation effects, nonlinear optical materials, electron paramagnetic resonance spectroscopy, and laser processing of materials. Prior to joining the AFIT faculty, Dr. Ries served as Director of the Center for Materials Research at Norfolk State University in Norfolk, Virginia, and Associate Director of the Applied Research Center at the Jefferson Center for Research and Technology Research Park in Newport News, Virginia. Dr. Ries was elected to the ASEE Engineering Research Council Board of Directors in 2008 and served a two-year term as Secretary/Treasurer (2011-2013). She has served on the Engineering and Science Foundation of Dayton Board since 2005 and as its Secretary/Treasurer since 2012. She was recognized by the Dayton Daily News as one of the region’s 2009 Ten Top Women, and was the Air Force’s civilian winner of the 2011 Department of Defense Women's History Month Foreign Language and Science, Technology, Engineering and Math (STEM) Role Model Award. SINGLETON, BRIANA J., Lt Col,
Assistant Professor of Nuclear Engineering, Deputy Department Head, Department of Engineering Physics, AFIT Appointment Date: 2014 (AFIT/ENP); BS, University of Miami (FL), 2000; MS, Air Force Institute of Technology, 2008; PhD, Air Force Institute of Technology, 2014. Lt Col Singleton’s current research focuses on active optical materials, in particular rare-earth doped fibers and their response to radiation exposure. Radiation environments studied are those applicable to the Air Force and DOD operational environments. Her previous assignments include testing units with Air Combat Command and the Defense Threat Reduction Agency. Prior to her current AFIT assignment, she was assigned to the Air Force Technical Applications Center as the deputy division chief for atmospheric research. Tel. 937-255-3636 x4571, email: Briana.Singleton@afit.edu

STENGER, ROBERT A., Lt Col,
Assistant Professor of Atmospheric Science, Department of Engineering Physics, AFIT Appointment Date: 2015 (AFIT/ENP); BS, Texas A&M University, 1994; MS, Air Force Institute of Technology, 2000; PhD, Naval Postgraduate School, 2013. Lt Col Stenger’s research interests cover a variety of topics in atmospheric science to include problems in numerical weather prediction, tropical meteorology, and satellite radiance correction. Before joining AFIT he was Deputy Director, Office of Mission Engineering, System Engineering Directorate at the National Reconnaissance Office. He has four archival publications and presentations. He is a member of the American Meteorological Society. Tel. 937-255-3636 x4505, email: Robert.Stenger@afit.edu
STEWARD, BRYAN J.,
Research Assistant Professor of Optical Engineering, Department of Engineering Physics, AFIT Appointment Date: 2015 (AFIT/ENP); BS, Optical Sciences & Engineering, University of Arizona, 2004; MS, Applied Physics, Air Force Institute of Technology, 2006; PhD, Optical Sciences & Engineering, Air Force Institute of Technology, 2011. Dr. Steward’s current research interests include infrared and electro-optical remote sensing, physics-based sensor and scene modeling, and algorithm development primarily for application to technical intelligence problems. Additional interests include characterization of battlespace combustion (e.g. muzzle flash, detonations, and rocket plumes), methods for assessing on-orbit sensor performance, and machine learning. He has 13 archival publications and presentations. Before joining AFIT, he spent over nine years at the National Air and Space Intelligence Center (NASIC) where he most recently led R&D activities as a Principal Intelligence Analyst in the Persistent Infrared Squadron. AFIT research center affiliation: CTISR. Tel. 937-255-3636 x4639, email: Bryan.Steward@afit.edu

TSENG, H. ROSE, Maj,
Assistant Professor of Atmospheric Science, Department of Engineering Physics, AFIT Appointment Date: 2016 (AFIT/ENP); BS, University of California at Los Angeles (UCLA), 2004; MS, Naval Postgraduate School, 2010; PhD, UCLA, 2016. Maj Tseng’s research interests include future climatological changes, the influence of aerosols on precipitation and tropical cyclones, and the Arctic sea ice decline, as these topics pertain to future political, societal and environmental impacts. Prior to her PhD studies, Maj Tseng served as Commander, Detachment 1, 607th Weather Squadron at Camp Red Cloud, Republic of Korea. Maj Tseng has given a number of talks regarding her research on the effects of black carbon on precipitation to include the University of California (Carbon Neutrality Initiative) and the Pardee RAND Graduate School (LA Policy Symposium). Maj Tseng also serves as Board Advisor for Women Veteran Issues for The BREATHE Center in San Clemente, CA. Tel. 937-255-3636 x4520, email: Hsien-Liang.Tseng@afit.edu

REFEREED JOURNAL ARTICLES

TUTTLE, RONALD F.,
Associate Professor of Nuclear Engineering, Department of Engineering Physics, AFIT Appointment Date: 2001 (AFIT/ENP); BS, Chemical Engineering, University of Missouri (Columbia), 1968; MS, Nuclear Engineering, University of Missouri (Columbia), 1970; PhD, Nuclear Engineering, University of Missouri (Columbia), 1980. Dr. Tuttle's research areas include applications of active and passive remote sensing, spectroscopy, diagnostics, and signals processing to problems in intelligence collection and exploitation. Other areas of interest include nuclear weapon effects and space nuclear power systems modeling and mechanics of aerosols. He has published in both unclassified and classified refereed archival journals and conference proceedings. Dr. Tuttle served as Director, Center for Technical Intelligence Studies and Research (CTISR), AFIT, until Aug 2012. Tel. 937-255-3636 x4536, email: Ronald.Tuttle@afit.edu
WEEKS, DAVID E.,
Professor of Physics, Department of Engineering Physics, AFIT Appointment Date: 1993 (AFIT/ENP); BA, Physics with honors, Colgate University, 1983; MS, Physics, Georgia Institute of Technology, 1985; PhD, Physics, University of Arkansas, 1989. Dr. Weeks’ research interests include the development of time dependent wave packet methods to model the quantum mechanics of simple chemical reactions and compute associated state to state reactive scattering matrix elements. Of particular interest are new methods that incorporate non-adiabatic coupling between electronic and nuclear degrees of freedom. New research interests include the development of plasma models to improve the operation of noble gas laser systems. AFIT research center affiliation: CDE. Tel. 937-255-3636 x4561, email: David.Weeks@afit.edu

“Theoretical Models of Absorption and Emission in Thulium Doped Fiber Lasers.” Sponsor: AFRL/RD. Funding: $30,000. [CDE]

REFEREED CONFERENCE PAPERS ON THE BASIS OF FULL PAPER REVIEW

WOLF, PAUL J.,
Professor of Physics, Department of Engineering Physics, AFIT Appointment Date: 1994 (AFIT/ENP), and Associate Dean for Academic Affairs, Graduate School of Engineering and Management (AFIT/EN); BS, Regis College, 1978; MS, Air Force Institute of Technology, 1979; PhD, Air Force Institute of Technology, 1985. Dr. Wolf serves as the Associate Dean for Academic Affairs responsible for administrative leadership for all academic matters in the Graduate School and serves as AFIT’s accreditation liaison to the Higher Learning Commission and ABET. Dr. Wolf’s current scholarly interests include emergent behaviors of complex systems, foundations of quantum mechanics, and existential threat analyses. Dr. Wolf has made experimental contributions to atomic/molecular spectroscopy, reactive and non-reactive collision kinetics, laser-based thin film deposition processes, ionospheric and atmospheric chemistry, and environmental monitoring. Prior to joining the AFIT faculty in 1994, Dr. Wolf served as Director/Principal Investigator of the Materials Physics Division at the F.J. Seiler Research Laboratory (USAFA, CO), Assistant Professor of Physics in the Physics Department at the U.S. Air Force Academy, and Research Director for Impulse Laser Effects at the Defense Nuclear Agency. He has published over 20 papers. Tel. 937-255-0452, email: Paul.Wolf@afit.edu

YEo, Yung Kee,
Professor of Physics, Department of Engineering Physics, AFIT Appointment Date: 1984 (AFIT/ENP); BS, Seoul National University, 1961; PhD, University of Southern California, 1972. Dr. Yeo’s research interests are in the area of solid state physics, especially characterization of the electrical and optical properties of elemental, compound, ternary, and quaternary semiconductors using techniques such as Hall-effect measurement, deep level transient spectroscopy, electroluminescence, and photoluminescence. Dr. Yeo has published around 120 articles in archival journals and several technical reports, presented around 220 papers at professional conferences, and holds one patent. He is a reviewer for the Applied Physics Letters, Journal of Applied Physics, Journal of Electronic Materials, and Air Force Office of Scientific Research (AFOSR) proposal. He is currently funded by the AFOSR to study Si- and Ge-based semiconductors such as GeSn and GeSiSn. This work involves collaborative effort with the Arizona State University, University of Delaware, Kangwon National University, and Taiwan National University. He has directed the research of seven post-doc fellows, five visiting research faculty members, 16 PhDs, and 26 MS students. He received the Ezra Kotcher Award for 1990, the Gage H. Crocker Outstanding Professor Award for 1992, and the General Bernard A. Schriever Award for 1997. Tel. 937-255-3636 x4532, email: Yung.Yeo@afit.edu

Notes: Research Center affiliations are listed in [ ] if applicable. Shared credit for funding awards is indicated by the percentages shown for each faculty member associated with the project.

AKERS, BENJAMIN F.,
Associate Professor of Mathematics, Department of Mathematics and Statistics, AFIT Appointment Date: 2011 (AFIT/ENC); BS, Pennsylvania State University, 2003; MA, University of Wisconsin - Madison, 2005; PhD, University of Wisconsin-Madison, 2008. Dr. Akers’ research interests include nonlinear waves, applied mathematics, fluid mechanics, and numerical analysis. Dr. Akers’ current research considers the stability and existence of traveling water waves as well as the fluid flows induced by high energy lasers. AFIT research center affiliation: CDE.
Tel. 937-255-3636 x4522, email: Benjamin.Akers@afit.edu

BOOKS AND CHAPTERS IN BOOKS

OTHER SIGNIFICANT RESEARCH PRODUCTIVITY

ARMSTRONG, ANDREW M., Capt,
Assistant Professor of Statistics, Department of Mathematics and Statistics, AFIT Appointment Date: 2016 (AFIT/ENC); BS, Michigan Technological University, 2008; MS, Air Force Institute of Technology, 2010; MS, University of Texas at San Antonio, 2011; PhD, Air Force Institute of Technology, 2016. Capt Armstrong’s research interests include wavelet analysis, astrostatistics, machine learning, big data, and computational statistics.
Tel. 937-255-3636 x7403, email: Andrew.Armstrong@afit.edu

BEMROSE, TRAVIS J., Maj,
Instructor of Mathematics, Department of Mathematics and Statistics, AFIT Appointment Date: 2016 (AFIT/ENC); BS, University of Idaho, 2003; MS, University of Texas at San Antonio, 2012. Maj Bemrose’s research interests include Hilbert space frame theory, compressed sensing, numerical methods, and modeling and simulation. His current research is on the Paulsen problem and equiangular frames. He has papers on unconditional convergence bounds for frames, introducing the concept of weaving frames, and cruise missile training simulators. Previous military assignments and deployments include: B-52 test and evaluation, Nuclear Weapon System Evaluation Program, signals
analysis, antenna design, special ops rapid hardware development, AETC course-flow optimization, and Iraqi battlespace, media-space, and public opinion analysis during Operation Iraqi Freedom (OIF). Tel. 937-255-3636 x4619, email: Travis.Bemrose@afit.edu

BENNETT, BENJAMIN F., Maj,
Assistant Professor of Statistics, Department of Mathematics and Statistics, AFIT Appointment Date: 2014 (AFIT/ENC); BS, USAF Academy, 2000; MBA,University of New Mexico, 2003; MA, University of New Mexico, 2003; PhD, Arizona State University, 2014. Maj Bennett’s research interests are in the area of empirical corporate finance, specifically corporate governance, board structure, executive compensation, and incentives.

BULUTOGLU, DURSUN A.,
Associate Professor of Statistics, Department of Mathematics and Statistics, AFIT Appointment Date: 2004 (AFIT/ENC); BS, University of Maryland at College Park, 1996; PhD, University of California, Berkeley, 2001. Dr. Bulutoglu’s research interests include design of experiments and combinatorial problems in statistics. His papers are on finding GMA (generalized minimum aberration) factorial designs by enumerating all non-isomorphic orthogonal arrays. The tools he uses for enumerating orthogonal arrays are integer programming, constraint programming, and isomorphism rejection. Tel. 937-255-3636 x4704, email: Dursun.Bulutoglu@afit.edu

**OTHER SIGNIFICANT RESEARCH PRODUCTIVITY**

**GEYER, ANDREW J., Lt Col,**
Assistant Professor of Statistics, Department of Mathematics and Statistics, AFIT Appointment Date: 2014 (AFIT/ENC); BS, North Dakota State University, 2000; MS, Air Force Institute of Technology, 2009; PhD, Air Force Institute of Technology, 2014. Lt Col Geyer’s research interests include design of experiments, combinatorial optimization problems in statistics, statistical performance metrics, and statistical classification techniques. The tools he uses are integer programming, constraint programming, graph isomorphism rejection, and multivariate statistical analysis. Lt Col Geyer has served as a weather officer in F-16, AH-64, OH-58D, and CH-47 flying units as well in units supporting US Army and Special Operations ground forces. Tel. 937-255-3636 x4584, email: Andrew.Geyer@afit.edu

**JORDAN, JEREMY D., Maj,**
Assistant Professor of Statistics, Department of Mathematics and Statistics, AFIT, Appointment Date: 2016 (AFIT/ENC); BA, Aurora University, 2001; MS, Air Force Institute of Technology, 2007; PhD, Air Force Institute of Technology, 2012. Maj Jordan’s research interests include optimization, decision analysis, network theory and big data analysis. Maj Jordan has served as an operations research analyst for operational testing and human research as well as an international program manager for the Air Force Office of Scientific Research. Tel. 937-255-3636 x4669, email: Jeremy.Jordan@us.af.mil

**KAPPEDAL, RYAN D., Lt Col,**
Assistant Professor of Statistics, Department of Mathematics and Statistics, AFIT Appointment Date: 2014 (AFIT/ENC); BS, United States Air Force Academy, 1999; MS, Air Force Institute of Technology, 2008; PhD, University of Washington, 2014. Lt Col Kappedal was a visiting fellow at the University of Chicago’s Data Science for Social Good Fellowship summer of 2015 and a visiting scientist at Lawrence Livermore National Labs summer of 2016. His research interests include Machine Learning, Big Data, Statistical Genetics, Neuroscience (MRI imaging), Compressed Sensing, Seismic Detection, Gravimetric Detection, and Imagery Feature Selection. He has served as an intelligence officer at various levels and deployed twice in support of Operation Iraqi Freedom. Tel. 937-255-3636 x4630, email: Ryan.Kappedal@afit.edu

**REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF FULL PAPER REVIEW**

LAIR, ALAN V.,
Professor of Mathematics and Head, Department of Mathematics and Statistics, AFIT Appointment Date: 1982 (AFIT/ENC); BA, North Texas State University, 1970; MS, Texas Tech University, 1972; PhD, Texas Tech University, 1976. Dr. Lair's research interests include parabolic and elliptic partial differential equations, functional analysis, applied mathematics, and nonlinear diffusion. He has published several papers on the properties of solutions of various nonlinear partial differential equations. Tel. 937-255-3636 x4519, email: Alan.Lair@afit.edu

EDITORSHIPS IN PROFESSIONAL JOURNALS

Member of the Editorial Board, International Scholarly Research Notices: Mathematical Analysis

MCBEE, BRIAN K., Lt Col,
Assistant Professor of Mathematics, Department of Mathematics and Statistics, AFIT Appointment Date: 2011 (AFIT/ENC); BS, Brigham Young University, 1992; MS, University of Colorado, Colorado Springs, 1998; MS, The Ohio State University, 2004; MS, Virginia Polytechnic and State University, 2011; PhD, Virginia Polytechnic and State University, 2011. Lt Col McBee's primary research interests include numerical partial differential equations and control as applied to fluid dynamics, numerical methods with emphasis on finite elements, geodetic science, and applications of mathematics in intelligence gathering. He has served as an intelligence officer providing RC-135 support and reporting, near-real-time space and missile events analysis, foreign counter-space capabilities assessments, battlestaff-level modeling and simulation exercise support, and national-agency-level training and education oversight for Title X training, as well as Advanced Geospatial Intelligence (AGI) and synthetic aperture radar (SAR) exploitation.

MIXON, DUSTIN G., Maj,
Assistant Professor of Mathematics, Department of Mathematics and Statistics, AFIT Appointment Date: 2012 (AFIT/ENC); BS, Central Washington University, 2004; MS, Air Force Institute of Technology, 2006; MA, Princeton University, 2010; PhD, Princeton University, 2012. Maj Mixon's research interests include applied harmonic analysis, frame theory, compressed sensing, signal processing, and mathematical data science. He has served as an Air Force analytical scientist for three years modeling biological responses to radiofrequency radiation. Tel. 937-255-3636 x4516, email: Dustin.Mixon@afit.edu

QUINN, DENNIS W.,
Professor Emeritus of Mathematics, Department of Mathematics and Statistics, AFIT Appointment Date: 1974 (AFIT/ENC); BA, Mathematics, University of Delaware, 1969; MS, Applied Mathematics, University of Delaware,
1971; PhD, Applied Mathematics, University of Delaware, 1973. Dr. Quinn's fields of expertise include numerical methods, finite elements, finite differences, integral equation methods, numerical analysis, functional analysis, system identification, and applied mathematics. Dr. Quinn has advised several MS students in modeling toxic chemical exposure. Dr. Quinn has published papers dealing with integral and finite element solutions of acoustic problems, using the telegrapher's equation to model lightning, using the method of characteristics in cancer risk assessment, using the diffusion equation to model diffusion through the skin in pharmacokinetic modeling, and using the boundary element method for moving boundary problems.

**REEGER, JONAH A., Capt,**
Assistant Professor of Mathematics, Department of Mathematics and Statistics, AFIT Appointment Date: 2013 (AFIT/ENC); BS, Mathematical Sciences, United States Air Force Academy, 2007; MA, Computational and Applied Mathematics, Rice University, 2009; PhD, Applied Mathematics, The University of Colorado, Boulder, 2013. Capt Reeger’s primary research interests include Taylor series and Padé approximation methods, multi-step methods, optimization and optimal control, radial basis functions, pseudospectral methods, and the Painlevé equations. He has served as an Air Force analytical scientist on the acquisition of an experimental infrared satellite. AFIT research center affiliation: CDE. Tel. 937-255-3636 x3320, email: Jonah.Reeger@afit.edu

Assistant Professor Emeritus of Statistics, Department of Mathematics and Statistics, AFIT Appointment Date: 1974 (AFIT/ENC); AB, University of Rochester, 1965; MS, Air Force Institute of Technology, 1971; MS, Wright State University, 1983. Professor Reynolds’ research interests include management cybernetics, learning theory, and exploring ways computer graphics can support statistical and mathematical education. In 1989, Professor Reynolds received Tau Beta Phi’s Outstanding Professor Award.

**SCHUBERT KABBAN, CHRISTINE M.,**
Associate Professor of Statistics, Department of Mathematics and Statistics, AFIT Appointment Date: 2010 (AFIT/ENC); BA, University of Dayton, 1992; MBA, Wright State University, 1994; MS, Wright State University, 1995; PhD, Air Force Institute of Technology, 2005. Dr. Schubert Kabban’s research interests include classification techniques, diagnostic testing, ROC curve theory and extensions, information fusion, modeling and prediction, regression and regression extensions, survey design and analysis, and general biostatistics. Dr. Schubert Kabban’s
current research is in evaluating the performance of classification systems and information-fused systems via ROC methodology, sequential strategies for classification, structural health monitoring of airframes, as well as epidemiological applications to disease prediction and medical diagnostics. 5.5.3. GRADUATE RESEARCH PAPERS

AGNES, ALLEN Y., Improving the Nuclear Reform Implementation for Success. AFIT/ENS/MS/16S-023. Faculty Advisor: Lt Col Joshua K. Strakos. Sponsor: AFGSC. [COA]

HABBESTAD, JOHN M., 463L Pallet Compatibility Implications for Warfighting Capacity in the Civil Reserve Air Fleet. AFIT/ENS/MS/16J-024. Faculty Advisor: Dr. Jeffery D. Weir. Sponsor: AMC/A9. [COA]

JOHNSTON, TAYLOR J., Optimizing the Continental United States Air Refueling Infrastructure. AFIT/ENS/MS/16J-027. Faculty Advisor: Dr. Jeffrey D. Weir. Sponsor: HQ USAF/A3. [COA]

KOSTRUBALA, KAZIMIR M., United States Transportation Command's Role as a Lead Enabling Agency during Humanitarian and Disaster Relief Events Outside the Contiguous United States. AFIT/ENS/MS/16J-029. Faculty Advisor: Lt Col Joshua K. Strakos. Sponsor: AMC/A4. [COA]

ORTIZ, MARC ANTHONY C., Assessing the Effects of Organizational Changes within the Office of the Secretary of Defense on the Nuclear Mission. AFIT/ENS/MS/16S-035. Faculty Advisor: Dr. Alan W. Johnson. Sponsor: AFGSC. [COA]

PABST, DAVID, Department of Energy: An Organizational Look at America's Nuclear Deterrent. AFIT/ENS/MS/16S-036. Faculty Advisor: Dr. Jeffrey A. Ogden. Sponsor: AFGSC. [COA]

5.5.4. FACULTY BIOGRAPHIES & RESEARCH OUTPUT

Notes: Research Center affiliations are listed in [ ] if applicable. Shared credit for funding awards is indicated by the percentages shown for each faculty member associated with the project.

AHNER, DARRYL K.,
Associate Professor of Operations Research, Department of Operational Sciences, AFIT Appointment Date: 2010 (AFIT/ENS); Director, Scientific Test and Analysis (STAT) for Test and Evaluation (T&E) Center of Excellence, Appointment Date: 2012; BS, Mechanical Engineering, United States Military Academy, 1990; MS, Applied Mathematics, Rensselaer Polytechnic Institute, 1999; MS, Operations Research & Statistics, Rensselaer Polytechnic Institute, 1999; PhD, Systems Engineering, Boston University, 2005. Dr. Ahner's research interests include dynamic programming applications, queueing applications, mathematical control theory and model predictive control of complex systems, missile defense, combat modeling algorithm development, and models for supply chain management. Dr. Ahner is a licensed Professional Engineer in the Commonwealth of Virginia. Dr. Ahner is Vice President-Professional Development, Military Operations Research Society. AFIT research center affiliation: COA. Tel. 937-255-6565 x4708, email: Darryl.Ahner@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Algorithm Development for the Combat Sample Generator (COSAGE) Model.” Sponsor: NPS. Funding: $55,000.

“PMESI Assessments and Further Data Development.” Sponsor: CAA. Funding: $95,000. [COA]

“Scientific Test and Analysis Techniques for Automatic Test and Analysis.” Sponsor: NAVSEASYSCMD. Funding: $500,000.

SPONSOR FUNDED EDUCATIONAL PROJECTS

“COE-S 310/410: Experimental Design and Analysis I&II Short Courses.” Sponsor: DIA. Funding: $26,000

REFEREED JOURNAL PUBLICATIONS

REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF ABSTRACT REVIEW

OTHER SIGNIFICANT RESEARCH PRODUCTIVITY

BAUER, KENNETH W.,
Professor of Operations Research, Department of Operational Sciences; Program Chair, PhD, Operations Research, Department of Operational Sciences, AFIT Appointment Date: 1996 (AFIT/ENS); Director, Sensor Fusion Laboratory; BS, Miami University (Ohio), 1976; MEA, University of Utah, 1980; MS, Air Force Institute of Technology, 1981; PhD, Purdue University, 1987. Dr. Bauer’s research interests include pattern recognition, applied multivariate statistics, and statistical aspects of neural networks; all are usually within the specific application area of automatic target recognition and more recently hyper-spectral imaging processing. AFIT research center affiliation: COA. Tel. 937-255-6565 x4328, email: Kenneth.Bauer@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Anomaly Detection and Data Visualization for Improved Cyber Security.” Sponsor: USA CYBER. Funding: $150,000 – Bauer 80%, Chrissis 20%. [COA]

REFEREED JOURNAL PUBLICATIONS

REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF FULL PAPER REVIEW

REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF ABSTRACT REVIEW

CHRISISS, JAMES W.,
Associate Professor of Operations Research, Department of Operational Sciences, AFIT Appointment Date: 1987 (AFIT/ENS); BS, University of Pittsburgh, 1975; MS, Virginia Polytechnic Institute and State University, 1977; PhD, Virginia Polytechnic Institute and State University, 1980. Dr. Chrissis’ research interests include mathematical programming, optimization, engineering design optimization, simulation-driven optimization, and integer modeling. Dr. Chrissis has been a member of the faculties of Virginia Tech and the University of South Florida. He is a member of the Institute for Operations Research and Management Sciences (INFORMS), the Military Operations Research Society (MORS), The American Institute for Aeronautics and Astronautics (AIAA), and Sigma Xi. AFIT research center affiliation: COA. Tel. 937-255-3636 x4606, email: James.Chrissis@afit.edu
CUNNINGHAM, WILLIAM A.,
Professor of Logistics and Supply Chain Management, Department of Operational Sciences; Program Chair, MS in Logistics and Supply Chain Management, Department of Operational Sciences, AFIT Appointment Date: 1994 (AFIT/ENS); BS, Business Administration, Missouri Southern State College, 1976; MS, Economics, Oklahoma State University, 1979; PhD, Economics, University of Arkansas, 1986. Dr. Cunningham’s research interests include strategic mobility, cost/benefit analysis, econometric modeling, costing, privatization and A-76 studies, modal choice, network analysis, location analysis, supply chain management, and RFID. Tel. 937-255-6565 x4283, email: William.Cunningham@afit.edu

REFEREED JOURNAL PUBLICATIONS

EDITORSHIPS IN PROFESSIONAL JOURNALS

OTHER SIGNIFICANT RESEARCH PRODUCTIVITY

DECKRO, RICHARD F.,
Distinguished Professor of Operations Research, Department of Operational Sciences, AFIT Appointment Date: 1994 (AFIT/ENS); Joint Warfare Analysis Center Chair of Applied Operations Research, and Director, Future Operations Investigation Laboratory, BSIE, State University of New York at Buffalo, 1972; MBA,1973 & DBA, Decision Sciences, Kent State University, 1976. Dr. Deckro’s research, teaching, and consultation interests include the areas of information operations and information assurance, behavioral modeling including social network analysis, counter insurgency and irregular warfare, applied mathematical programming and optimization, scheduling, network models, project and program management, modeling and analysis, space applications, campaign modeling, reconstruction and stabilization, measures of effectiveness and assessment, technology selection and management, advanced manufacturing methods, multi-criteria decision making, and decision analysis. Dr. Deckro is a Fellow of the Military Operations Research Society. Tel. 937-255-6565 x4325, email: Richard.Deckro@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“JWAC AFIT Interaction.” Sponsor: JWAC. Funding: $75,000 – Deckro 80%, Ahner 10%, Lunday 10%.

“Transitioning the Production of Carbon Nanotubes from Development to Economic Viability.” Sponsor: Undisclosed. Funding: $14,986 – Deckro 33%, Stone 33%, Tucholski 33%.

REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF ABSTRACT REVIEW

EDITORSHIPS IN PROFESSIONAL JOURNALS

Editor, Military Operations Research.

DOUGLAS, MATTHEW A., Lt Col,
Assistant Professor of Logistics and Supply Chain Management, Department of Operational Sciences, AFIT
Appointment Date: 2014 (AFIT/ENS); BS, Mathematics, Angelo State University, 1996; MS, Logistics Management, Air Force Institute of Technology, 2003; PhD, Marketing, University of North Texas, 2009. Lt Col Douglas’s research interests include logistics/operations safety, diffusion of innovation, and ethics and decision-making.
Tel. 937-255-3636 x4740, email: Matthew.Douglas@afit.edu

HARTMAN, PAUL L.,
Director, Center for Operational Analysis, Department of Operational Sciences, AFIT Appointment Date: 2015 (AFIT/ENS); BS, Business Administration, University of Maryland, 1990; MS, Logistics Management, Air Force Institute of Technology, 1997; MA, International Affairs, University of Dayton, 1998; PhD, Logistics, Air Force Institute of Technology, 2013. Dr. Hartman’s research interests include multi-domain command and control; data creation, storage, management, and analysis; speed of data, effects-based data collection and analysis; modeling and simulation; and solving complex acquisition, maintenance, operations and supply chain problems. AFIT research center affiliation: COA. Tel. 937-255-6565 x4521, email: Paul.Hartman@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

"AFMC Senior Leader Forum Support." Sponsor: AFMC. Funding: $50,000. [COA]

“Airworthiness Planning in Support of the 5th-to-4th Gen Gateway Program.” Sponsor: AFLCMC. Funding: $16,626 – Hartman 50%, Weir 50%. [COA]

“Operational Requirements for the Mechanical Equipment & Subsystem Integrity Program (MECSIP).” Sponsor: AFLCMC. Funding: $450,000 – Hartman 50%, Weir 50%. [COA]

“Research, Development, Test and Evaluation (RDT&E) for the Presidential Aircraft Recapitalization (PAR) Program.” Sponsor: AFLCMC. Funding: $620,206 – Hartman 50%, Weir 50%. [COA]

“System Level Functional and Performance Requirements for the Special Mission Suite (SMS) System on the AC/MC-130J.” Sponsor: USSOCOM. Funding: $849,946 – Hartman 50%, Weir 50%. [COA]

Sponsor Funded Educational Projects

"Tasking, Processing, Exploitation, and Dissemination Examples Book Chapter Roadmap.” Sponsor: Undisclosed. Funding: $60,000. [COA]

REIMAN, ADAM D., Col,
Dean of Students and Assistant Professor of Logistics and Supply Chain Management, Department of Operational Sciences, AFIT Appointment Date: 2014 (AFIT/ENS); BS, Astronautical Engineering, US Air Force Academy, 1995; MBA, Military Management, Touro University International, 2006; MS, Logistics Management, Air Force Institute of Technology, 2009; PhD Logistics, Air Force Institute of Technology, 2014. Col Reiman’s research interests include airlift metrics, routing, scheduling, and fuel efficiency; energy efficiency, supply and demand; value-focused thinking, and heuristic search algorithms. Tel. 937-255-3636 x4689, email: Adam.Reiman@afit.edu

ROBBINS, MATTHEW J., Lt Col,
Associate Professor of Operations Research, Department of Operational Sciences; Division Chief, Operations Research Division, Department of Operational Sciences, AFIT Appointment Date: 2010 (AFIT/ENS); BS, Computer Systems Engineering, University of Arkansas, 1999; MS, Operations Research, Air Force Institute of Technology, 2005; PhD, Industrial Engineering, University of Illinois at Urbana-Champaign, 2010. Lt Col Robbins' basic research interests include applied statistics, approximate dynamic programming, game theory, Markov decision processes, and simulation. His applied research interests involve problems related to defense, to include the dispatch of medical evacuation assets, the routing of military inventory, and the control of missile defense systems. Problems related to public health are also of interest, with a particular emphasis on vaccine economics. AFIT research center affiliation: COA. Tel. 937-255-3636 x4539, email: Matthew.Robbins@afit.edu

5.6.3. FACULTY BIOGRAPHIES & RESEARCH OUTPUT

Notes: Research Center affiliation is listed in [ ] if applicable. Shared credit for funding awards is indicated by the percentages shown for each faculty member associated with the project.

BADIRU, ADEDEJI B.,
Dean, Graduate School of Engineering and Management, AFIT Appointment Date: 2013 (AFIT/EN); BS, Tennessee Technological University, 1979; MS, Tennessee Technological University, 1981; PhD, Industrial Engineering, University of Central Florida, 1984. Dr. Badiru’s research interests include Project Modeling, Analysis, Management and Control, Mathematical Modeling, Computer Simulation, Information Systems, and Economic Analysis. He is the author of several books and technical journals. Tel. 937-255-3636 x4799, email: Adedeji.Badiru@afit.edu

BOOKS AND CHAPTERS IN BOOKS

COLOMBI, JOHN M.,
Associate Professor and Program Chair of Systems Engineering, Department of Systems Engineering and Management, AFIT Civilian Appointment Date: 2008 (AFIT/ENV); BSEE, University of Lowell, 1982; MSEE, Air Force Institute of Technology, 1992; PhD, Electrical Engineering, Air Force Institute of Technology, 1996. Dr. Colombi’s research interests within the broad discipline of Systems Engineering include systems architecture and model-based systems engineering techniques, multi-vehicle unmanned/autonomous design, acquisition process modeling, optimal space constellation design, systems of systems analysis, complex adaptive systems and human systems integration. AFIT research center affiliations: ANT and CSRA. Tel. 937-255-3636 x3347, email: John.Colombi@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“Low Cost Attributable Aircraft Technology (LCAAT) Design Space Exploration.” Sponsor: AFRL/RQ. Funding: $25,000 – Colombi 70%, Lucas 20%, Jacques 10%.

“Open Systems Acquisition.” Sponsor: SAF/AQ. Funding: $271,000.

REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF FULL PAPER REVIEW

ENINGER, ROBERT M., Lt Col,
Assistant Professor of Industrial Hygiene, AFIT Appointment Date: 2015 (AFIT/ENV); BS, Civil and Environmental Engineering, United States Air Force Academy, 1995; MS, Civil Engineering, University of Texas-San Antonio, 2000; MS, Health Science, Purdue University, 2002; PhD, Environmental Health, University of Cincinnati, 2008. Lt Col Eninger’s research interests include aerosol science, exposure assessment, and respiratory protective devices. Tel. 937-255-3636 x4511, email: Robert.Eninger@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

FASS, ROBERT D.,
Assistant Professor of Systems Integration and Cost Analysis, Department of Systems Engineering and Management, AFIT Civilian Appointment Date: 2015 (AFIT/ENV); BA Economics, University of New Mexico, 1989; MBA, University of New Mexico, 1993, PhD, Business Administration and Management, New Mexico State University, 2008. Dr. Fass’s research interests include cost analysis, decision analysis, risk analysis, operations research, behavioral economics, organizational behavior, organizational change, and government acquisition policy. Tel. 937-255-3636 x4388, email: Robert.Fass@afit.edu

FELKER, DANIEL L.,
Chemist GS-11, Department of Systems Engineering and Management, Appointment Date: 2006 (AFIT/ENV); PhD, Analytical Chemistry, Kansas State University, 2005, served in the United States Army from Dec 1986 to Aug 1997. Current research interests include: X-ray photoelectron spectroscopy of thin film surfaces with a focus on the surface absorption organophosphates; modeling the absorbent properties of nano-particles for remediation of toxic compounds; the mechanism of thermo deactivation of Bacillus Anthracis Spores; electrochemical biosensors for the detection of organophosphates; and environmental chemistry of wetlands. Tel. 937-255-3636 x7410, email: Daniel.Felker@afit.edu

SPONSOR FUNDED RESEARCH PROJECTS

“JWAC AFIT Interaction (Space Research).” Sponsor: JWAC. Funding: $100,000 – Ford 50%, Swenson 50%. [CSRA]

FREELS, JASON K., Maj,
Assistant Professor of Systems Engineering, Department of Systems Engineering and Management, AFIT Appointment Date: 2013 (AFIT/ENV); BS, Auburn University, 2000; MS, Air Force Institute of Technology, 2006; PhD, Systems Engineering, Air Force Institute of Technology, 2013. Maj Freels’ research interests include reliability growth testing, accelerated life testing, accelerated degradation testing, and competing risk analysis. Tel. 937-255-3636 x4676, email: Jason.Freels@afit.edu

REFEREEED JOURNAL PUBLICATIONS

GRIMAILA, MICHAEL R.,
Professor and Head, Department of Systems Engineering and Management, AFIT Appointment Date: 2004
(AFIT/ENV); BS, Texas A&M University, 1993; MS, Texas A&M University, 1995; PhD, Computer Engineering,
Texas A&M University, 1999. Dr. Grimaila’s research interests include modeling and simulation, mission assurance,
network management and security, quantum cryptography, and systems engineering. He is a member of the ACM, a
Senior Member of the IEEE, a Fellow of the ISSA, and serves as an advisor to the Prince of Wales Fellows/Prince
Edward Fellows at MIT and Harvard. AFIT research center affiliation: CCR and CSRA. Tel. 937-255-3636 x4800,

KEMPISTY, DAVID M., Lt Col,
Assistant Professor of Environmental Engineering and Science, AFIT Appointment Date: 2014 (AFIT/ENV); BS, Environmental Engineering, Michigan Technological University, 1996; MS, Environmental Engineering and Science, Air Force Institute of Technology, 2006; PhD, Civil Engineering, University of Colorado Boulder, 2014. Lt Col Kempisty’s research interests include water quality issues, specifically using advanced and conventional adsorbents and UV-LED photocatalyst technologies. Perfluorinated compounds and their environmental toxicity, fate, and transport is also an active research area. Tel. 937-255-3636 x4711, email: David.Kempisty@afit.edu

KOSCHNICK, CLAY M., Lt Col,
Assistant Professor of Systems Engineering, Department of Systems Engineering and Management, AFIT Appointment Date: 2015 (AFIT/ENV); BS, United States Air Force Academy, 1998; MS, Georgia Institute of Technology, 2007; PhD, University of Florida, 2012. Lt Col Koschnick’s research interests include engineering economy, dynamic programming, and econometrics. Tel 937-255-3636 x7402, email: Clay.Koschnick@afit.edu

LANGHALS, BRENT T.,
Assistant Professor of Information Resource Management, Department of Systems Engineering and Management, AFIT Appointment Date: 2016 (AFIT/ENV); BS, United States Air Force Academy, 1995; MS, Air Force Institute of Technology, 2001; PhD, University of Arizona, 2011. Dr. Langhals’ research interests include Data Analytics, “Big Data,” Human-Computer Interfaces, Systems Engineering, Vigilance, and Psychophysiological Cue Detection. Tel 937-255-3636 x4390, email: Brent.Langhals@afit.edu

LONG, DAVID S.
Assistant Professor of Systems Engineering, Department of Systems Engineering and Management (through SRISY), AFIT Appointment Date: 2016 (AFIT/ENV); BS Industrial Engineering & Management, North Dakota State University, 1988; MS Engineering, California State University Northridge; PhD Engineering Systems, Massachusetts Institute of Technology, 2012. Research interests: Systems of systems, open systems architecture, model based systems engineering, wicked problems, human machine interfaces, automation and autonomy. Tel. 937-255-3636 x4390, email: David.Long.ctr@afit.edu

LUCAS, BRANDON M., Lt Col,
Assistant Professor of Cost Analysis, Department of Systems Engineering and Management, AFIT Appointment Date: 2015 (AFIT/ENV); BA, University of Texas at Austin, 1998; ME & MA, University of Oklahoma, 2002; MS, Air Force Institute of Technology, 2004; PhD, Economics, George Mason University, 2011. Lt Col Lucas’ research interests: incentive structures, profit motives, coordination issues, and the economics of public choice & the law. Tel. 937-255-3636 x4441, email: Brandon.Lucas@afit.edu
MAILLOUX, LOGAN O., Maj,
Assistant Professor of Systems Engineering, Department of Systems Engineering and Management, AFIT
Appointment Date: 2015 (AFIT/ENV); BS, Computer Engineering, Lawrence Technological University 2002; MS Systems Engineering, AFIT, 2008; PhD, Systems Engineering, AFIT, 2015. He is commissioned as Major in the United States Air Force (USAF) and serves as a computer developmental engineer. Maj Mailloux is a Certified Information System Security Professional (CISSP), Certified Systems Engineering Professional (CSEP), and holds department of defense certifications in cyberspace operations, systems engineering science and technology management, test & evaluation, and program management. He is a member of IEEE, ACM, INCOSE, and ITEA professional societies, as well as, HKN and TBP honor societies. Maj Mailloux has served the USAF as a cyberspace operations expert responsible for planning and executing network defense exercises, documenting and training computer security best practices, performing test and evaluation of enterprise resource planning solutions, and maintaining distributed simulation infrastructure. Maj Mailloux's research interests include system security engineering, complex information systems, and quantum key distribution. AFIT research center affiliation: CCR. Tel. 937-255-3636 x3348, email: Logan.Mailloux@afit.edu

OTHER SIGNIFICANT RESEARCH PRODUCTIVITY

SHELLEY, MICHAEL L.,
Professor of Environmental Science and Engineering, Department of Systems Engineering and Management, AFIT Appointment Date: 1996 (AFIT/ENV); BCE, Civil Engineering, Auburn University, 1974; MS, Environmental Engineering, Virginia Tech, 1975; PhD, Environmental Science and Engineering, University of North Carolina, 1985. Dr. Shelley focuses on system dynamics modeling in analyzing long-term management strategies. His research interests include abiotic and biochemical contaminant fate and transport, physiologically-based pharmacokinetic modeling, and ecological engineering design to optimize mission activity with environmental constraints. Tel. 937-255-3636 x7387, email: Michael.Shelley@afit.edu

SLAGLEY, JEREMY M.,
Assistant Professor of Industrial Hygiene and Environmental Science, Department of Systems Engineering and Management, AFIT Appointment Date: 2016 (AFIT/ENV); BS, United States Military Academy, 1993; MS, University of Iowa, 2000; PhD, West Virginia University, 2006. Dr. Slagley’s research interests include occupational stressor assessment and control, specifically for hazardous noise, aerosols, and exposure assessment. Tel. 937-255-3636 x4632, email: Jeremy.Slagley@afit.edu

REFEREED JOURNAL PUBLICATIONS

STOPPEL, CHRISTOPHER M., Lt Col,
Assistant Professor of Engineering Management, Department of Systems Engineering and Management, AFIT
Appointment Date: 2015 (AFIT/ENV); BS, United States Air Force Academy, 1996; MS, Air Force Institute of Technology, 2001; PhD, University of Texas at Austin, 2013. Lt Col Stoppel’s research interests include sustainability, building energy performance, and project delivery evaluation. Tel. 937-255-3636 x4645, email: Christopher.Stoppel@afit.edu

THAL, ALFRED E., Jr.,
Assistant Professor of Engineering Management, Department of Systems Engineering and Management, AFIT
Appointment Date: 1998 (AFIT/ENV); BS, Civil Engineering, Texas Tech University, 1981; MS, Engineering Management, AFIT, 1985; PhD, Environmental Engineering, University of Oklahoma, 1999. Dr. Thal’s research interests include engineering and environmental management, groundwater flow and remediation technologies, facility and infrastructure management, product development, sustainability, and project management. Tel. 937-255-3636 x7401, email: Al.Thal@afit.edu

7. TECHNOLOGY TRANSFER

7.1. COOPERATIVE RESEARCH AND DEVELOPMENT AGREEMENTS

Directed Energy and Remote Sensing Applications,” USAF CRADA 15-AFIT-11, Collaborator: Raytheon Space and Airborne Systems, Faculty Investigator: Dr Steven Fiorino, Effective Date: 6 October 2015, Term: 24 months.

“Learning About Signals through Tinkering and Game-Playing.” USAF CRADA 16-AFIT-01, Collaborator: Western Washington University, Faculty Investigator: Dr Richard Martin, Effective Date: 16 October 2015, Term: 39 months.

“NDA - ICS Operational Technology & Security,” USAF CRADA 16-AFIT-03, Collaborator: Tenet 3, LLC, Faculty Investigator: LTC Mason Rice, Effective Date: 3 November 2015, Term: 12 months.

“NDA - AF SBIR Topic Number AF153-001,” USAF CRADA 16-AFIT-04, Collaborator: The Design Knowledge Company, Faculty Investigator: Dr Eric Swenson, Effective Date: 28 October 2015, Term: 12 months.

“Side-Channel-Based Integrity Assessment and Intrusion Detection of Industrial Controllers,” USAF CRADA 16-AFIT-05, Collaborator: Power Fingerprinting, Inc., Faculty Investigator: Maj Samuel Stone, Effective Date: 5 January 2016, Term: 24 months.

“NDA - Aircraft Propulsion Systems,” USAF CRADA 16-AFIT-06, Collaborator: Boeing Research & Technology, Faculty Investigator: Maj Darrell Crowe, Effective Date: 5 January 2016, Term: 12 months.

“NDA - Solar Road Panel,” USAF CRADA 16-AFIT-07, Collaborator: Solar Roadways Inc., Faculty Investigator: Dr Ron Coutu, Effective Date: 5 January 2016, Term: 12 months.

“NDA - Operational Technology For Sewage and Water Treatment Facilities,” USAF CRADA 16-AFIT-08, Collaborator: Trinity River Authority of Texas, Faculty Investigator: LTC Mason Rice, Effective Date: 7 January 2016, Term: 12 months.

“NDA - Operational Technology for Cyber Security,” USAF CRADA 16-AFIT-09, Collaborator: ASM Research, Faculty Investigator: LTC Mason Rice, Effective Date: 5 January 2016, Term: 12 months.

“NDA - Satellite Attitude Determination and Control,” USAF CRADA 16-AFIT-11, Collaborator: Space-X (Space Exploration Technologies Corp.), Faculty Investigator: Dr Eric Swenson, Effective Date: 20 January 2016, Term: 12 months.

“Fieldable Fireball In-situ and Remote Emission Spectroscopy Sensor Suite (F2iRES3),” USAF CRADA 16-AFIT-12, Collaborator: Spectral Sciences, Inc., Faculty Investigator: Dr Kevin Gross, Effective Date: 6 April 2016, Term: 15 months.

“SUPERNova (Six U Performance-Enhanced Radiation-Tolerant Nanosat Open Vehicle Architecture,” USAF CRADA 16-AFIT-13, Collaborator: Pumpkin, Inc., Faculty Investigator: Dr Eric Swenson, Effective Date:

“NDA - Ultra-Violet Water Treatment,” USAF CRADA 16-AFIT-17, Collaborator: BasTech Inc, Faculty Investigator: Dr Michael Miller, Effective Date: 4 August 2016, Term: 12 months.

“NDA - Review of Interactive Visualization of Computer Security Data,” USAF CRADA 16-AFIT-18, Collaborator: Vambrace Inc, Faculty Investigator: Dr Gilbert Peterson, Effective Date: 4 August 2016, Term: 12 months.

“NDA - Cyber-Security and Operational Technology,” USAF CRADA 16-AFIT-19, Collaborator: Sypris Electronics LLC, Faculty Investigator: LTC Mason Rice, Effective Date: 4 August 2016, Term: 12 months.

“NDA - Review ESCAPE Technology,” USAF CRADA 16-AFIT-20, Collaborator: Vambrace Inc, Faculty Investigator: Mr Matt Dever, Effective Date: 27 August 2016, Term: 12 months.

7.2. EDUCATIONAL PARTNERSHIP AGREEMENTS

“EPA - ATIC Technical Intelligence Training Program,” USAF CRADA AFIT EPA 2016-01, Collaborator: Advance Technical Intelligence Center, Faculty Investigator: Dr Kevin Gross, Effective Date: 29 December 2015, Term: 60 months.

“EPA - Educational Partnership Student Research Tuition,” USAF CRADA AFIT EPA 2016-02, Collaborator: Southwestern Ohio Council on Higher Education, Faculty Investigator: Dr Paul Wolf, Effective Date: 15 August 2016, Term: 60 months.

7.3. PATENTS

PATENT APPLICATIONS

PATENTS AWARDED

INVENTION DISCLOSURES

Hexakis Icosahedron With and Internal Vacuum, Brain Cranston and Anthony Palazotto, May, 2016
APPENDICES

APPENDIX A: POST-DOCTORAL AND OTHER RESEARCH ASSOCIATES’ CREDENTIALS

BOSE-PILLAI, SANTASRI,
Post-Doctoral Research Associate (through ORISE), Department of Engineering Physics, AFIT Appointment date: 2011 (AFIT/ENP); BS, Electrical Engineering, Jadavpur University, India, 2000; MS, Electrical Engineering, New Mexico State University, 2005; PhD, Electrical Engineering, New Mexico State University, 2008. Dr. Bose is working on generation and propagation of partially coherent sources and laser beam propagation and imaging problems through atmospheric turbulence. Tel. 937-255-3636 X4903, email: Santasri.BosePillai.ctr@afit.edu

REFEREED JOURNAL PUBLICATIONS

REFEREED CONFERENCE PAPERS ON THE BASIS OF FULL PAPER REVIEW

REFEREED CONFERENCE PAPERS ON THE BASIS OF ABSTRACT REVIEW

CAHILL, ADAM D.,
AFNWC Postdoctoral Researcher (through ORISE), Department of Engineering Physics, AFIT Appointment Date: 2016 (AFIT/ENP); BS, Electrical and Computer Engineering, University of Louisville, 2008; MEng, Electrical and Computer Engineering, University of Louisville, 2009; MS, Plasma Physics, Cornell University, 2014; PhD, Plasma Physics, Cornell University, 2016; Dr. Cahill’s research is focused on the development of experimental and computational techniques to understand the response of aircraft skin to a thermal flash. Tel. 937-255-3636 x4698, email: Adam.Cahill.ctr@afit.edu
DOBOSZCZAK, STEFAN,
Post-Doctoral Research Associate (through ORISE), Department of Mathematics and Statistics, AFIT, Appointment Date: 2016 (AFIT/ENC); BS, Rensselaer Polytechnic Institute, 2010; PhD, University of Maryland - College Park, 2016. Dr. Doboszczak’s research interests include partial differential equations, compressible fluids, multiphase flows, and problems on moving domains. His current research is on applications of control theory for compressible fluids.

HAMMEN, NATHANIEL T.,
Post-Doctoral Research Associate (through ORISE), Department of Mathematics and Statistics, AFIT, Appointment Date: 2016 (AFIT/ENC); BS, University of Houston, 2009; MS, University of Houston, 2012; PhD, University of Houston, 2015. Dr. Hammens’s research interests include applied harmonic analysis, frame theory, and compressed sensing. Tel. 937-255-3636 x4489, email: Nathaniel.Hammen.ctr@afit.edu

REFEREEED JOURNAL PUBLICATIONS

KANEL, SUSHIL R.,
Research Grants Engineer, 2015-2016 (AFIT/ENR); BE, Civil Engineering, Tribhuvan University (Nepal), 1992; MS, Environmental Science and Engineering, Gwangju Institute of Science and Technology (GIST) (South Korea), 2001; PhD, Environmental Science and Engineering, GIST (South Korea), 2006. Since August 2015, in addition to his Research Grants Engineer duties, Dr. Kanel has assisted AFIT faculty and students in the field of environmental and material research (physical chemical treatment, fate and transport of nanomaterials in the subsurface, as well as the application of nanomaterials for water remediation). Tel. 937-255-3636 x4545, email: Sushil.Kanel@afit.edu.

REFEREEED JOURNAL PUBLICATIONS

REFEREEED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF ABSTRACT REVIEW

240

KEEFER, KEVIN J.,
Research Physicist, Department of Engineering Physics, AFIT Appointment Date: 2012 (AFIT/ENP); BS, Atmospheric Physics, United States Air Force Academy, 1981; MS, Systems Management, University of Southern California, 1983; MS Engineering Physics, Air Force Institute of Technology, 1985; PhD Solid State Physics, Air Force Institute of Technology, 1990; Measurement and Signature Intelligence Certificate, Air Force Institute of Technology, 2004. Dr. Keefer’s research interests include atmospheric sciences with special emphasis on atmospheric radiative transfer effects for remote sensing and directed energy applications; microphysical and radiative effects associated with atmospheric molecular and aerosol constituents; and military/geo-political history and implications for development of current and future national security strategy.

REFEREED CONFERENCE PAPERS ACCEPTED ON THE BASIS OF ABSTRACT REVIEW

OTHER SIGNIFICANT RESEARCH PRODUCTIVITY

KEENAN, CAMERON B.,
Post-Doctoral Research Associate, (through ORISE), Department of Engineering Physics, AFIT Appointment Date: 2013 (AFIT/ENP); BS. Physics, Case Western Reserve University, 2002; PhD, Physics, West Virginia University, 2011. Dr. Keenan’s work is focused on computer simulation and analysis of gas species during combustion events using imaging and non-imaging Fourier Transform Spectroscopy.

RHoby, Michael R.,
Post-Doctoral Research Associate, (through ORISE), Department of Engineering Physics, AFIT Appointment Date: 2016 (AFIT/ENP); BS. Physics, Michigan State University, 2010; MS, Optical Engineering, Air Force Institute of Technology, PhD. Optical Engineering, Air Force Institute of Technology, 2016. Dr. Rhoby’s work is focused on the developing mid-infrared (1-5 µm) hyperspectral imaging for combustion diagnostics and flow field analysis.
REFEREED CONFERENCE PAPERS ON THE BASIS OF ABSTRACT REVIEW

THANKAMANI MOHAN, MANIL,
National Research Council Post-Doctoral Fellow, Department of Mathematics and Statistics, AFIT. Appointment Date: 2015 (AFIT/ENC); BSc, University of Kerala, 2006; MSc, University of Kerala, 2008; PhD, Indian Institute of Science Education and Research, 2014. Dr. Mohan’s research interests include partial differential equations, functional analysis, control theory, mathematical fluid dynamics (compressible and incompressible flow), stochastic analysis, and stochastic differential equations. His current research includes control and stochastic analysis of compressible fluid flow, and quasilinear evolutions of hyperbolic type. Tel. 937-255-3636 x4722, email: Manil.Thankamanimohan@afit.edu

REFEREED JOURNAL PUBLICATIONS

OTHER SIGNIFICANT RESEARCH PRODUCTIVITY

Mohan, M., “L^p solutions of the Stochastic Navier-Stokes Equations Subject to Levy Noise with L^m(R^m) Initial Data,” International Conference on Nonlinear Dynamical Systems (ICNDS-2016), Department of Mathematics, Bharatiar University, Coimbatore, Tamil Nadu, India, 26 Mar 2016.

Mohan, M., “New Methods for Local Solvability of Quasilinear Symmetric Hyperbolic System,” Department of Mathematics, Indian Institute of Space and Technology (IIST) Trivandrum, Thiruvananthapuram, Kerala, India, 1 Apr 2016.

TURNER, DAVID B.,
DNDO/NTNFC Post-Doctoral Fellowship (through ORISE), Department of Engineering Physics, AFIT Appointment Date: 2013 (AFIT/ENP); BS, Biochemistry, Millersville University (United States), 2003; PhD, Chemistry, The Ohio State University (United States), 2009. Dr. Turner’s work is focused on the surface chemistry, band gap, work function and electrical properties of thorium and uranium oxides for their use as novel neutron detectors.

APPENDIX C: INFORMATION FOR OBTAINING A COPY OF A THESIS

Copies of theses with unlimited distribution may be obtained from the following agencies depending on the particular circumstances.

U.S. Government employees, individuals affiliated with a research and development activity within the U.S. Government, or its associated contractors, subcontractors, or grantees, under current U.S. Government contract; can order from:

DEFENSE TECHNICAL INFORMATION CENTER
8725 John J. Kingman Road, STE 0944
Ft Belvoir, VA 22060-6218
Phone: 1-800-225-3842
Website: http://www.dtic.mil/

Private U. S. citizens without a U. S. Government contract can order from:

NATIONAL TECHNICAL INFORMATION SERVICE
U.S. Department of Commerce
5285 Port Royal Road
Springfield, VA 22161
Phone: 1-800-553-6847
Website: http://www.ntis.gov

Information needed to obtain a given document:
1) author, 2) title, 3) publication date, and 4) reference to the document as an Air Force Institute of Technology thesis.

General inquiries concerning faculty and student research at the Air Force Institute of Technology may be addressed to:

Office of Research and Sponsored Programs (AFIT/ENR)
Air Force Institute of Technology
2950 Hobson Way
Wright-Patterson AFB, OH 45433-7765
Phone: 937-255-3633 (DSN 785-3633)
Website: http://www.afit.edu
Email: research@afit.edu
This report summarizes the research activities of the Air Force Institute of Technology’s Graduate School of Engineering and Management. It describes research interests and faculty expertise; lists student theses/dissertations; identifies research sponsors and contributions; and outlines the procedures for contacting the school. Included in the report are: faculty publications, conference presentations, consultations, and funded research projects. Research was conducted in the areas of Aeronautical and Astronautical Engineering, Electrical Engineering and Electro-Optics, Computer Engineering and Computer Science, Systems Engineering and Management, Operational Sciences, Mathematics, Statistics and Engineering Physics.
