Letter from the Chancellor

Our nation is entering an age of global competition with near-peer and peer competitors. Our Air and Space Forces need AFIT's cohort of defense-minded leaders and scholars to help shape the future defense and security environment in collaboration with our national and international partners. AFIT's world-class faculty and staff have prepared premiere defense-minded students to meet both current and future challenges for over one hundred years. We must strategically and purposefully build upon this tradition to continuously expand our impact in the years to come.

In July 2022, I organized and tasked the AFIT Strategic Planning Committee to develop a strategy with an executable plan of action to push the boundaries of what we have accomplished so far over the next five years (2023-2028). The council developed this detailed *Accelerating Superiority* strategic plan in an inclusive, collaborative process to effectively guide AFIT's prioritization of time and resources. AFIT provides quality, advanced, multi-disciplinary academic education and technical professional continuing education in support of our great nation. That must continue – while also achieving new heights at an accelerated pace!

During the development of the *Accelerating Superiority* strategic plan, we created six focus areas broken down into strategic drivers and strategic enablers. The strategic drivers are what drives and shapes the vision of what AFIT will be in the future. The strategic enablers allow us to realize that vision. They are presented here briefly.

Strategic Drivers

- Improving curriculum and delivery
- Expanding research and consultation
- Enhancing student recruitment, experience, and operations

Strategic Enablers

- Advancing faculty and staff
- Improving strategic communication
- Improving physical and digital infrastructure

I am committed to AFIT's progress as a leading defense-focused education, research, and consultation organization. I ask for your continued support and commitment as we execute this *Accelerating Superiority* strategic plan.

The Need for Strategic Change

The 2022 National Security Strategy¹ (NSS) and subsequent National Defense Strategy² (NDS) articulate the changing complex global geopolitical environment, strategic challenges, competition, and need for integrated deterrence. The NSS highlights investing in people, high quality education and training, including science, technology, engineering, and mathematics to build enduring advantages. Additionally, the NDS outlines the importance of maintaining a technological advantage through innovation, partnerships, and research and development. This has led the Secretary of the Air Force to lay out seven Operational Imperatives³ to stay at pace and seek to gain asymmetrical, technical advantage of adversaries. These changes and strategic documents make it essential for AFIT to adapt to support the needs of the Department of the Air Force in connection with developing our Airmen and Guardians with the competencies needed for future defense operations across the spectrum of competition.

Additionally, the Air Education and Training Command (AETC)⁴ recently updated their strategic vision, mission statement, and lines of effort to better align with the strategic shift. In concert with that effort the Air University (AU)⁵ also updated their strategic objectives. Although AFIT was already engaged in strategic planning prior to the AETC and AU efforts, these planning efforts of higher echelons have created an enhanced environment for the Air Force Institute of Technology (AFIT) to implement our *Accelerating Superiority* strategic plan. This is due to the consistent intent at all levels to improve agile education and help meet the dynamic needs of tomorrow's military.

AFIT's Vision and Mission

A central part of AFIT's current strategic planning effort updates the vision for AFIT and the foundational mission statement. These statements were crafted through faculty, staff, and student solicitation and then polished by the AFIT Strategy Council, which consists of key leadership across the various schools and programs. The AFIT Subcommittee of the Air University Board of Visitors reviewed and endorsed the mission and vision statements on 17 May 2023 prior to final approval by the AFIT Chancellor.

² The opening comments in the National Defense Strategy state, "The NDS directs the Department to act urgently to sustain and strengthen U.S. deterrence, with the People's Republic of China (PRC) as the pacing challenge for the Department." See p. III, <https://media.defense.gov/2022/Oct/27/2003103845/-1/-1/2022-NATIONAL-DEFENSE-STRATEGY-NPR-MDR.PDF>.

³ The "Why" of the 7 Operational Imperatives states, "China is fielding capabilities designed to defeat the United States' ability to project power in the Western Pacific; Russia is attempting the same in Eastern Europe." See https://www.af.mil/Portals/1/documents/2023SAF/OPERATIONAL_IMPARITIVES_INFOGRAPHIC.pdf.

⁴ AETC's 2022 vision states: "Develop Airmen with the competencies to win the high-end competition." This is supported by six lines of effort associated with education, training, and assessment of knowledge, skills, and competencies. See <https://www.af.mil/News/Article-Display/Article/3230762/aetccommander-announces-rebalanced-mission-vision-focus/>.

⁵ AU's 2023 Strategic Action Plan has three relevant facets to include: developing 21st Century Warfighters, enhancing force development delivery, and modernizing the learning environment. See <https://www.airuniversity.af.edu/News/Display/Article/3286854/air-university-commander-releases-strategic-action-plan/>.

AFIT Vision

Leading defense-focused education, research, and consultation to accelerate military superiority across all domains.

AFIT Mission

Educate defense professionals to innovatively accomplish the deterrence and warfighting missions of the U.S. Air and Space Forces.

The mission and vision updates reflect the aspirational goals this strategy seeks to build toward and sets forth the means by which AFIT will accomplish this. AFIT's primary output is the education of tomorrow's warfighter, a resource that will outlast any technological advantage.

The Scope of the Strategic Plan

The AFIT *Accelerating Superiority* strategic plan (2023-2028) is a five-year plan targeted on the six focus areas established by the AFIT Chancellor. The plan consists of multiple goals in each of the key focus areas, supported by action items built using a SMART⁶ framework. This strategy document provides a concise summary of the goals and associated action items. However, detailed information is available for all the action items in an Education Plan of Action and Milestones (EdPOAM) document. This concise summary states the title of the goal and details the office of primary responsibility (OPR) for that goal. In addition, this summary lists each action item's title, target completion date, OPR, and offices of common responsibility (OCRs).

Prior to the current strategic planning process, AFIT adopted the Diversity, Equity and Inclusion 2020-2025 Strategic Roadmap. One objective of the roadmap is to "Institutionalize diversity, equity, and inclusion (DEI) to enhance mission success." As part of that objective, a Diversity, Equity, Inclusion and Accessibility (DEIA) Council was chartered at the institutional level in 2022 with four working subcommittees. Another aspect of institutionalization is the hiring of the first DEIA Director,⁷ who will lead AFIT's DEIA efforts according to the DEI 2020-2025 Strategic Roadmap.⁸

⁶ SMART stands for Specific, Measurable, Aligned, Relevant, Time-bound, and Responsible. It is used by the Higher Learning Commission (HLC) as a good way to develop strategic goals and action items. See Advancing Strategy, a HLC workshop for more details, <https://www.hlcommission.org/Programs-Events/workshops.html>.

⁷ The DEIA Director position has been advertised with a closing date of 6 June 2023 and is pending a selection at the time of adoption of this *Accelerating Superiority* strategic plan.

⁸ Once the new DEIA Director has the opportunity to lead our team in developing the next phase of DEIA strategy, the AFIT Strategy Council will then update the *Accelerating Superiority* strategic plan as appropriate to incorporate the updated DEIA goals and action items. In the future, it is expected that DEIA goals will be fully integrated into overall AFIT strategic plans from inception.

The Strategic Plan Process

The AFIT *Accelerating Superiority* strategic plan follows AFIT Instruction 90-101, *Organizational Strategic Planning*, for the implementation, continual communication regarding, and updates to the plan and the associated EdPOAM.
